# VIETNAM'S LEADING CORPORATION

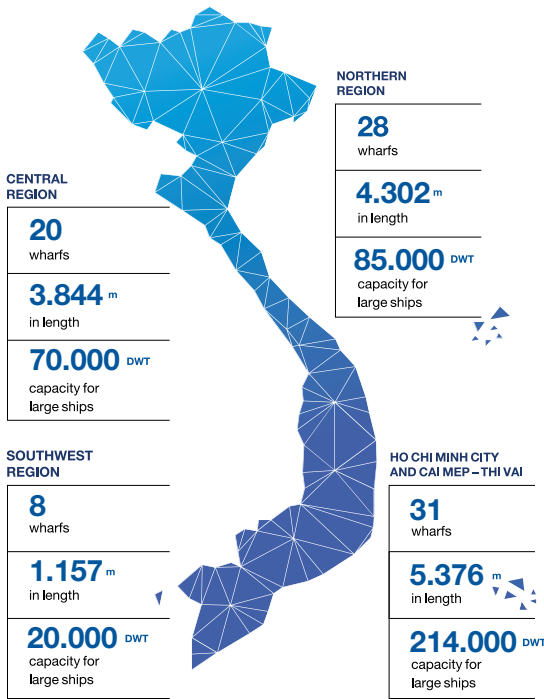

## OF SUPPLY CAPACITY IN THE MARITIME SERVICE

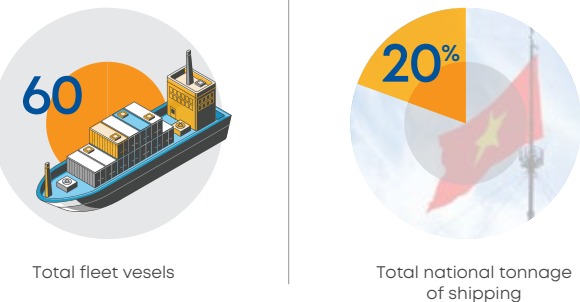

### PORT OPERATION

Ports of VIMC are provided with synchronized equipment, guaranteeing to serve the customers in regard to international standards and conventions. The system of container port is managed, exploited by joint venture companies between VIMC and partners who are large shipping lines, exploration companies in the world.

### SHIPPING

With a fleet of shipping vessels of more than 2 million tons in capacity, accounting for 20% of the total national tonnage of shipping, VIMC always satisfies the requirements of international Conventions, highest standards of International Registers Associations, supervised and exploited by professional, highly-trained managers and permanent crew.

### LOGISTICS

VIMC is a well known service provider and logistics in Vietnam with a modern system of warehouses and ICD in big cities stretching throughout all national large coasts. Updated synchronized set of equipment meets the needs of services of inland trucking throughout the country, satisfying partners with demanding requirements of high-quality service like: the shipping lines of NYK, MOL, K-Line... and important customers.

### MISSION

Vietnam is becoming a significant country and destination with a crucial placement on the global nautical map.

### VISION

VIMC is the first choice in the global supply chain solution logistics, contributing to the prosperity of Vietnam in the sea.

### BUSINESS PHILOSOPHY

#### BEYOND THE EXPECTATION

- **TO THE CUSTOMERS:** Providing exceptional experience and value.
- **TO THE SHAREHOLDERS:** Bring benefits beyond the expectation.
- **TO THE PARTNERS:** VIMC offers exceptional collaboration opportunities.
- **TO THE INTERNAL STAFFS:** The staffs of VIMC exceeds the requirements of the organization
- **TO THE SOCIETY:** VIMC makes outstanding contributions to the national maritime economic development
