About Company

Our company has been established by Saim BİLEK in 1957 to produce some car spare parts. In 1959, we produced a crane for a constructor whose name is İbrahim BİLEK. Our products had been liked by other constructors and they wanted us to produce this machine for themselves, too. After this situation, we decided to start manufacturing this type machines.

In 1992, we opened an atelier, which have 800 m2 area. We had produced our products in this atelier until 1999. We have been manufacturing our products in this 4800 m2 area since 1999. We have also 8200 m2 outside area. Our other factory is in Bursa Free Zone. We are manufacturing and doing our import-export Works there. We have 2000 m2 area in this factory.

We are the first company produced floor saws, plates, cranes and vibration machines in Turkey.

Our missions are that; serving all needs of construction market, creating new Technologies, improving construction sector, using all information we have, to be better in exportation area and providing continuity.

Our goal is not only remaining the best in Turkey, but also being one of the bests in Europe and the World.
