

Poslovna srečanja z indijskimi industrijskimi in inženiring podjetji

četrtek, 24. september 2026, 9.30 – 12.30

GZS, Dimičeva 13, Ljubljana (Dvorana A, 1. nadstropje)

Embassy of India
Ljubljana, Slovenia

no	Organization	Profile	Products	Sectors / industries / companies / institutions for meeting	Topics for discussion, to be addressed during the B2B, B2G meetings
1	ACME ENGINEERING INDUSTRIES	Machinery & Mechanical Appliances ACME Engineering Industries is a leading India-based manufacturer and exporter of Mechanical Seals and Magnetic Drive (Mag Drive) Pumps, serving customers across Dairy, Beverage, Pharma, and general industrial sectors worldwide. With regular exports to Brazil and Mauritius, and a growing footprint across Sri Lanka, Chile, Thailand, Australia, Canada, and East Africa, we combine precision engineering with reliable global supply capabilities. Our seal-less Mag Drive Pump range complements our sealing expertise, offering leak-free solutions ideal for hygienic and process-critical applications.	Precision-engineered mechanical seals, magnetic drive pumps, and PFA-lined pumping solutions. World-class sealing and fluid handling solutions.	Sector: dairy, pharma, chemical equipment manufacturer, industrial items supplier.	Business partnerships, export-import, JVs, investment opportunities
2	ATAI AUTO ANCILLARIES	Automotive components, Machinery and Mechanical Appliances, Iron, Steel and Base Metals and Electrical Machinery and Equipment	Sheet metal manufacturing company specializing in deep drawing of aluminium (AL), stainless steel (SS), and mild steel (MS) components. The facility is equipped with mechanical and double actions presses up to 300 tons, hydraulic presses up to 300 tons. Deals in in-house electroplating, spray painting, powder coating, and fabrication processes including MIG, CO ₂ , laser, and projection welding, along with induction brazing.	Automotive OEMs and Tier-1 Suppliers 2. Agricultural Machinery Manufacturers & Components Manufacturers 3. Industrial Machinery & Equipment Manufacturers 4. Electrical Equipment & Components Manufacturers 5. Metal Fabrication & Welding Companies 6. Railway & Transportation Equipment Manufacturers 7. Companies requiring precision sheet metal, deep drawing, tube	1. Opportunities for supplying sheet metal stampings, deep drawn components, welded assemblies, and machined parts to Slovenian and European OEMs and Tier-1 suppliers. 2. Vendor registration and qualification process for becoming an approved supplier. 3. Long-term contract manufacturing 4. Requirements for quality certifications, testing standards, and regulatory compliance for supplying to the European market. 5. Government incentives, tax benefits and export facilitation for India

3	BNR EXPORTS	BNR Exports stands for Precision, Quality and Reliability with the Slogan Precision Engineering and Beyond. BNR Exports is a 100% Export Oriented Unit Situated in Bommasandra Industrial Area Bangalore Manufacturing Precision Engineering Components for Critical Industries with the state of the Art Manufacturing Facilities. BNR Exports is part of a Group with over 60 Years of Manufacturing Excellence in manufacturing of Precision Turned and Machined Components, Sub-Assemblies, Assemblies, Jigs and Fixtures and SPMs for the Aerospace, Oil and Gas, Pumps and Valves, Transformer and General Engineering Industries. The Company is Driven by Advanced Manufacturing with Skilled Engineers and a commitment to Quality. BNR Exports Delivers Reliable Products that meet the highest Industry Standards	Stainless Steel Stub Shafts; Aluminium Spacers, HYd Adaptor Plates and ISO Shafts for the Pumps; DOME Valve assemblies in Various sizes along with Manufacturing of Domes, Bodies, Top Plates, Insert Rings, Spigot Rings, Top and Bottom Adaptors in various sizes as per customer drawings for the Valves Which opens and closes with the aid of a Pneumatic Cylinder for collecting the Ash in a furnace , Hubs for the Gears, Parts for the medical Equipment Parts for the Gas Turbines. Parts for Small engines of an Aircraft and also for Tejas Aircraft	Aerospace, Oil and Gas, Automobile, Pumps and Valves, Gear manufacturers, Transformer manufacturers and General Engineering Industries	During the B2B Meetings the discussion to be very transparent by the customer by sharing their Product Range requirements and Technical Specifications, finding out our customisation capability, New Product development Support, Value added services we can provide, OMS Certifications, Organisation performance , production capacity, Automation level, Scalability for Increase demand, Logistics Support, Business continuity plans, Minimum Order Quantities, Cost reduction Initiatives, Technical support after supply, Environmental compliance like ROHS and REACH ETC. Long term partnership Opportunities. To ask the customer regarding sourcing Opportunities, Biggest challenge with existing suppliers, supplier approval requirements, Mandatory certifications, B2G Meetings with the Government to be very transparent with all the regulatory compliance, procurement procedures, Environmental and Labour Compliance, Tender /RFP Process eligibility and evaluation method and timelines. Health, Safety and social
4	Dezitech Engineering Pvt Ltd	Automotive components, Machinery and Mechanical Appliances, Iron, Steel and Base Metals	Engineering design, new product development and supply chain. Areas of specialisation: Automotive, Industrial, HVAC, Oil and gas.	Engineering design services related to HVAC & refrigeration, Oil & gas, process industry, Automotive industry. Supply of - gear boxes & related components	Engineering design outsourcing Manufacturing of: - Actuators - Gear boxes - components of gear boxes
5	INDCON PROJECTS AND EQUIPMENT LIMITED	Design, Engineering and Manufacturing organisation serving the Process Industries in the field of Oil & Gas, Petrochemical, Power, Fertiliser, Textile etc.	Pressure Vessels, Receivers, Separators, Knock Out Drums (KOD), Reactors, Columns etc. Heat Exchangers Air Fin Coolers Air / Gas Dehydration & Purification Packages Nitrogen Generation Packages Oil & Gas Filtration and Separation packages		

6	PESHAVARIA EXPORTS PRIVATE LIMITED	PESHAVARIA EXPORTS (P) LIMITED. are manufactures of wide range of PEPL Cable Glands & Accessories for different Environments and Cable Construction applications. Many of the Glands comply in performance with B. S. 6121: 1989. Today, PESHAVARIA EXPORTS, is a leading name as a Brass Cable Glands manufacturer. We are pleased to introduce PEPL range of Earthing and Lighting protection equipment as shown in this catalogue. In addition to the above mentioned range of products, we are also offering Brass Conduit Fittings.	BRASS & ALUMINIUM CABLE GLANDS & ACCESSORIES COPPER TUBE TERMINALS STAINLESS STEEL TURNED PARTS	Microtronic Ltd Companies who are importers of the products that we manufacture or similar	A potential discussion about possibility of trade between the companies.
7	SUNWISE ENGINEERING PRIVATE LIMITED	Electrical Machinery and Equipment and Iron, Steel and Base Metals	Transmission and Distribution Overhead Line Materials Galvanized Fabricated Steel Structures Nut, bolts, and fasteners Cable tray items HEAVY DUTY ENGINEERING FABRICATION	Power Sector (Transmission & Distribution), EPC, Power Sector. I would like to meet power transmission and distribution companies, EPC and Govt contractors, regulatory bodies, research institutions, and technology providers.	Market entry, business expansion, and procurement opportunities in the power sector Power generation, transmission, and distribution SUPPLIERS AND USERS. Joint ventures, technology transfer, and strategic partnerships. Government policies, regulatory frameworks, and public-
8	TEAM D ENGINEERING PVT LTD	CvCompany Overview With over two decades of experience, we are a trusted partner in precision manufacturing and engineering solutions, serving customers in more than 25 countries worldwide. Our operations are supported by a 100,000+ sq. ft. state-of-the-art manufacturing facility and a dedicated team of 180+ skilled professionals, with continued growth driven by innovation and customer success. Our Key Strengths: • Over 20 years of manufacturing excellence • Global presence across 25+ countries • 100,000+ sq. ft. integrated manufacturing facility • Team of 180+ dynamic and experienced professionals • Two strategic joint ventures with global OEMs • 75 ultra-high precision machining centers • Class 7 cleanroom for precision assembly and cleaning • End-to-end design and engineering services • Comprehensive contract manufacturing solutions • Strong expertise in OEM manufacturing and strategic partnerships By combining advanced manufacturing capabilities, engineering expertise, and global collaborations, we deliver high quality, reliable, and innovative solutions.	TEAM D have been honed over two decades of experience across more than 25 countries. Our specialization covers a wide range of industries including Semiconductor, Cleanroom Equipment, Design and Manufacturing, Testing and Measurements, Aerospace and Defense, Medical Equipment, R&D, ultra-high precision machining assemblies, as well as contract manufacturing and joint ventures.	We are excited about the potential for collaboration in various sectors, including Make in India, Precision Machining, Cleaning Room Assembly, and Contract Manufacturing.	TEAM D Interest to collaboration in various sectors, like Semiconductor, Medical Electronics, Aerospace and Defense, Precision Machining, Cleaning Room Assembly, and Contract Manufacturing. Sectors

9	VGLOBE MARCOM PVT. LTD.	Electrical Machinery and Equipment. Diversified engineering and technology company delivering innovative and reliable solutions across multiple sectors. Portfolio includes Water Handling Pumps with Controllers, Solar Pumps with Controllers, EV Charging Infrastructure, Metal Enclosures, Specialised Tools, Energy Storage Batteries, Hospital Furniture, Specialised Coatings and Capacitors.	1. AC / DC Chargers for Electric Vehicles (EV Charging Infrastructure). HS Code: 85044030 : Product: AC / DC Chargers for Electric Ebikes, 2 Wheelers, 3 Wheelers, 4 Wheelers & Commercial Fleet Vehicles. https://vglobemarcom.in/pdf/ev-charging-infrastructure-pdf. 2. Specialised Auto-Gripping & Auto Expanding Tools . HS Code: 82041110 : Patent Pending Auto-gripping & Auto-expanding tools providing removal / extraction of fasteners, anchors with threads with broken heads; on or inside vehicle body, engine or a component. https://vglobemarcom.in/pdf/specialized-tools-auto-expanding 3. IP65 Rated Enclosures & Distribution Boards. HS Code: 85381010 : IP65 rated	1. EV charging network operators, energy distributors, smart grid infrastructure developers, Electrical / MEP / EPC Contractors 2. Tier 1 and Tier 2 automotive component suppliers, vehicle assembly plants, and large-scale industrial maintenance networks. 3. Channel Partners / Distributors interested in purchasing Container Load and distributing within their network.	1. EV Infrastructure Integration: Exploring partnerships to supply and integrate VGLOBE's AC/DC chargers into Slovenia's rapidly expanding public and private commercial charging networks. 2. Demonstrating our patent-pending auto-gripping tools to automotive manufacturers and maintenance hubs to improve production efficiency and component extraction. 3. Appointing local distributors for our IP65-rated enclosures and distribution boards to serve Slovenia's highly automated manufacturing and agricultural sectors.
10	VIJAY ELECTRIC CO	We introduce ourselves as one of the leading manufacturers of Power & Distribution Transformers, Dry type Transformers catering to requirements across various utilities across pan India and based out of Bangalore, Karnataka. With an experience of more than a decade in the industry, we have catered to segments like Energy, Oil and Gas, Hospitality, Process Industry, Building and Commercial segment etc. We are regular supplier to various utilities across pan India.	Distribution and Power Transformers, Dry type Transformers	We are interested in meeting Utility/Turnkey Agencies, EPC Contractors, Contract Distributors, Commercial & Industrial Agents, Liaisoning Agents, Importers, and Power Utility Companies for the promotion and distribution of our distribution transformers and other electrical equipment in the European market.	We are interested in understanding the technical requirements for transformers, transformer procurement strategies and methodologies adopted by utilities, and the certification standards applicable in Slovenia and Europe. We also seek information on vendor registration procedures, utility procurement practices, and market opportunities for supplying distribution transformers in the Slovenia and European market.
