# Voith is a premium supplier of screening equipment + 30 years of experience

**VOITH**

- High efficient **screening equipment** for **Voith and Non-Voith machines**
- **Dedicated team of experienced screening experts** to tackle our customers challenges – **worldwide**
- Our customers do not only rely on our products, but on our **skills to improve their screening systems**

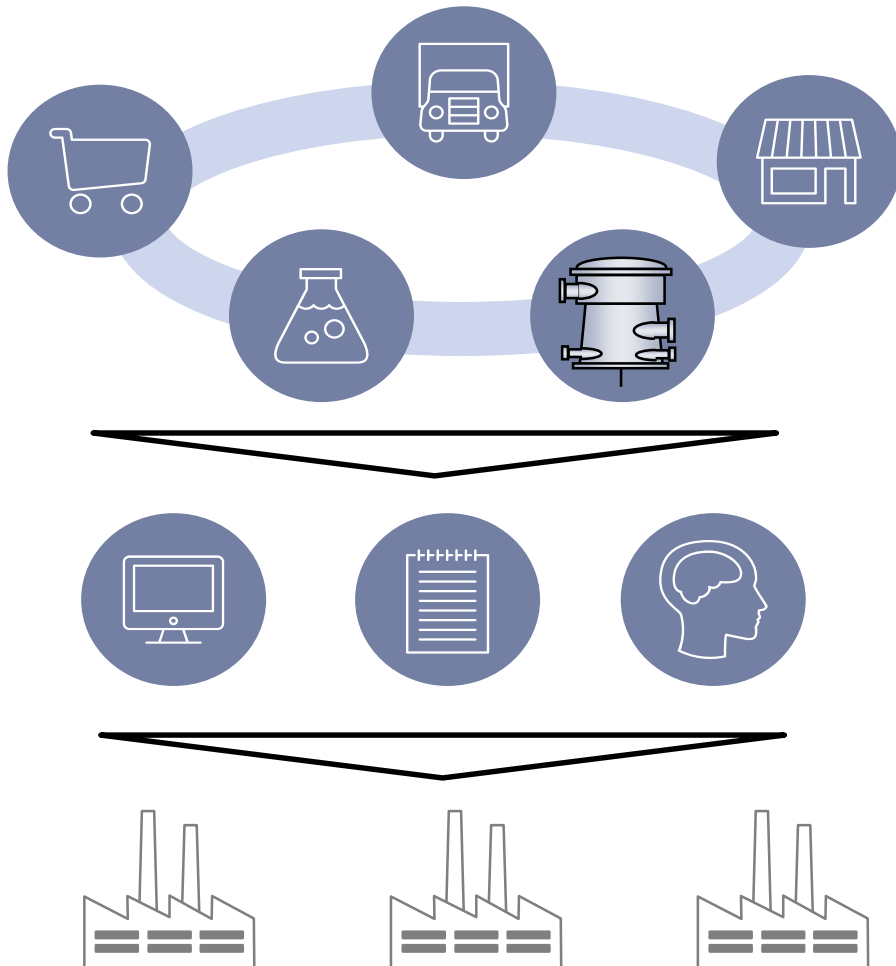

# How do you manage your baskets today?

**VOITH**

# Voith SmartBasket

## What is the situation today?

### Supply chain for baskets

- Orders / Production
- Logistics
- Warehouse
- Installed
- Rechroming

### Detailed data stored

- in a “homemade” database
- on paper lists
- In someones head
- not at all

### Exchange on cooperate level:

- Very rare
- Little synergies used today

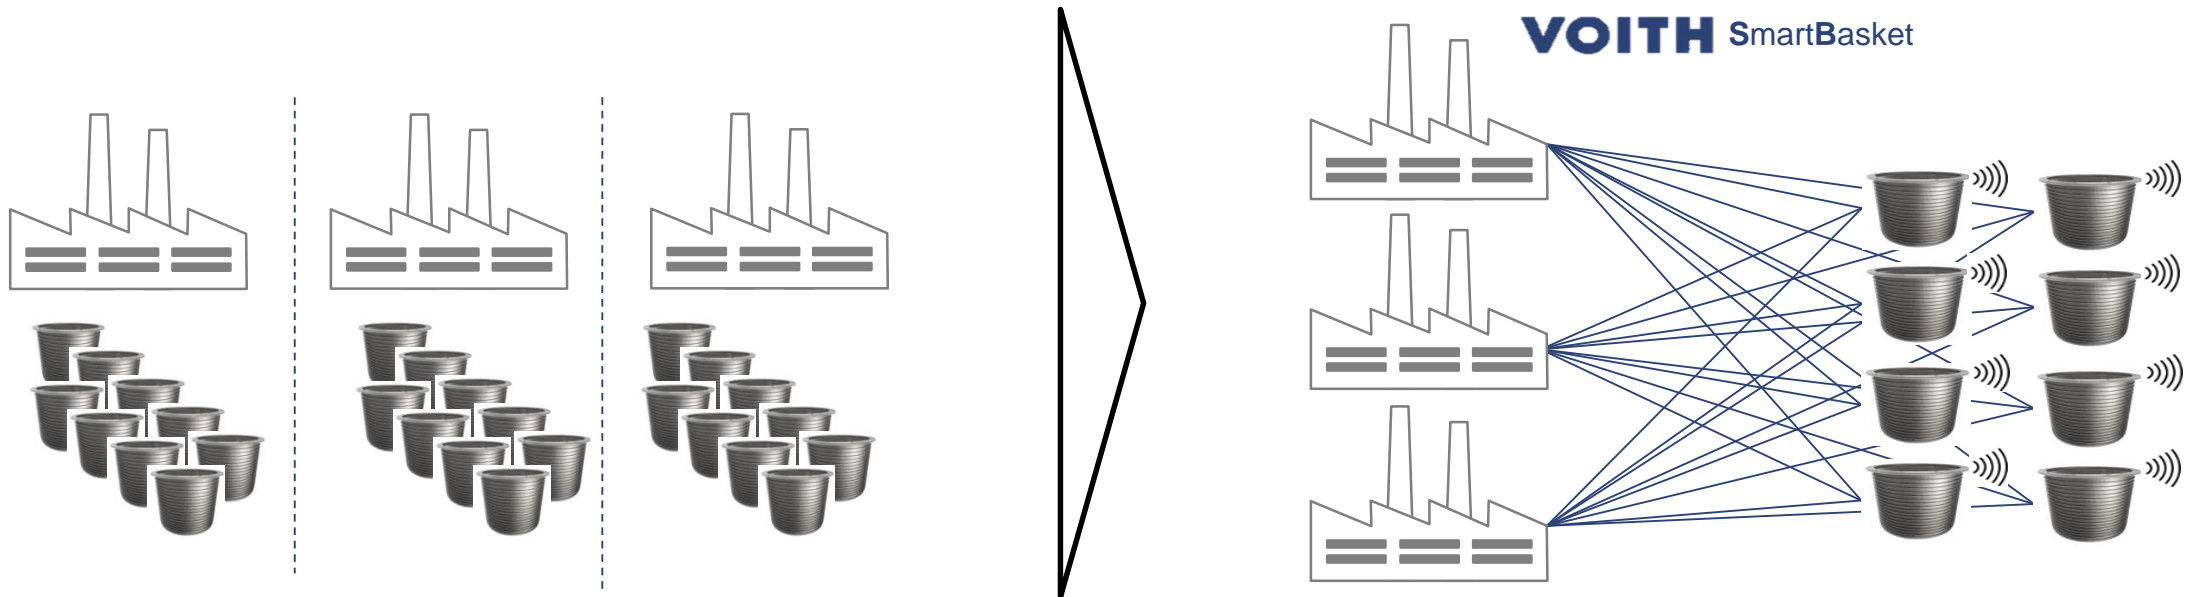

# Smart Basket – Inventory savings potential for corporate groups

## Situation today

- Big companies are dealing with 500-800 baskets per year
- No exchange of baskets on cooperate level

## Advantage with SmartBasket

- Cooperate cockpit of global inventories
- Easy exchange of lifecycle information

# Voith introduces SmartBasket

## A game-changing solution for asset & lifecycle mgmt.

**VOITH**

SmartBasket provides:

- An **inventory management tool** - on mill and corporate level
- **Lifecycle tracking** for each single basket (e.g. rechroming cycles, days in operations)
- **Transparency** on the supply chain
- A **direct connection to the Voith Paper Webshop**

# Voith SmartBasket

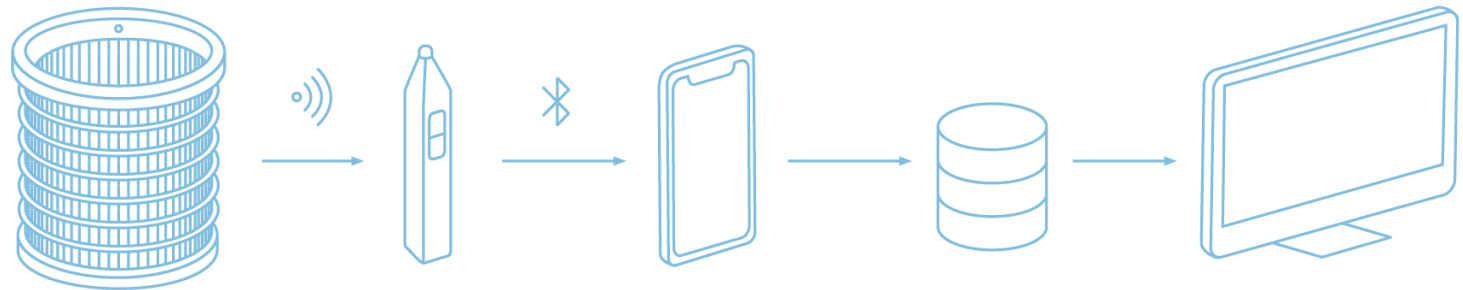

## Scan. Connect. Track. Act.

VOITH

SmartBasket approach:

- **All new Voith baskets** come with an integrated RFID chip (installed base can be upgraded).

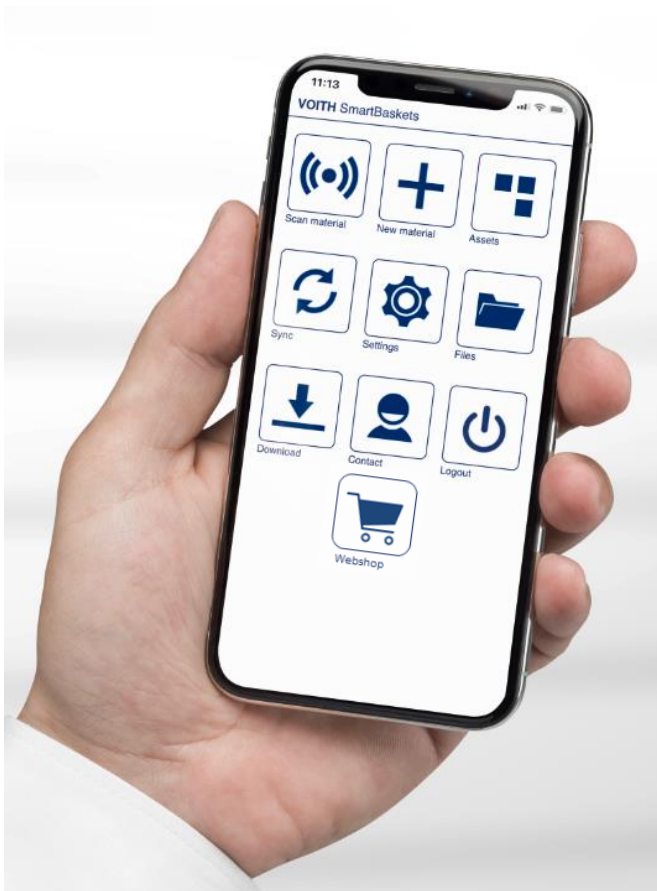

- The **web-based cockpit provides transparency** during the whole lifecycle for all baskets in your mill – or even your complete corporate group.
