Status Quo and Quo Vadis "Recycling and circular economy" in Slovenia

For more than 3 years Ljubljana - the capital of Slovenia - has been a showcase and considered to be the best practice project in the South-Eastern European Union of a "Zero Waste" city with recycling rates of over 90%. The government, the local authorities and the EU Commission have supported this project and the results has been positive, so far. In the future, Slovenia plans to roll out this project nationwide and become an environmentally friendly and resource-saving model/country in the region. The presentation and discussion of the government programs and the "Framework Strategy 2050 of the Recycling and Closed Substance Cycle Economy" will be focusing on what has been achieved so far and what needs to be tackled in the future in Slovenia in order to meet the targets. This session will take place as part of a panel discussion:

- The EU Commission DG Environment - Ms. Maja Desgrees-Du-Lou - Directorate B Circular Economy and Growth,
- Slovenian Ministry of the Environment and Spatial Planning - Ms. Jana Miklavčič, Head of Waste Management Unit
