

GLOBAL GATEWAY IN KENYA

KES 280 billion (EUR 1.8 billion)

Partnering for a green, digital and connected future

Global Gateway is the European Union's investment offer for smart, clean and secure links in digital, energy and transport, and for stronger health, education and research systems around the world.

Through a Team Europe approach, bringing together the EU, its Member States and their financial and development institutions, Global Gateway aims to mobilise to investments in high-quality, sustainable infrastructure investments worldwide.

In Kenya, Global Gateway investments focus on:

- Renewable energy and climate action
- Digital connectivity and skills
- Transport and logistics that support greener trade along key corridors

All investments are in line with EU values such as the rule of law, human rights and high social and environmental standards.

Upgrading of the Mombasa-Mtwapa-Kilifi road section - Mbogolo Bridge

REGIONAL CORRIDORS, TRADE & AGRI-LOGISTICS: KES 193 BILLION (EUR 1.16 BILLION)

Supporting Kenya as the region's most efficient trade gateway by improving corridor planning and infrastructure, urban mobility and resilience in corridor cities, border posts and cold chain logistics, so goods move faster, cheaper and with less waste from farm and factory, to regional and global markets.

Projects:

- Business Environment and Export Enhancement Programme (BEEEP)
- Northern Corridor Infrastructure Masterplan Update, Analytical comparative cost study and Projects Investment Prospectus for two priority projects
- Global Gateway Corridor 8. Study for a Cost Recovery Mechanism for the Development of Border Posts in East Africa
- Global Gateway Corridor 8: Facilitating Trade and Infrastructure for Agri-Logistics and Cool Chain Development along the Northern Corridor
- Nairobi Sustainable Transport Programme BRT 3 – with European Investment Bank
- Clean Core Bus Rapid Transit Line 3 Nairobi (CBRT3) – with AfD
- Electric Mobility in Kenya: Supporting the electrification of the Bus Rapid Transit (BRT) System in Nairobi – with GIZ
- Capacity Building on World Bank's Development Impact Evaluation (DIME)
- Support to Road Sector Policy: 10th European Development Fund Rural Roads Rehabilitation Project in Kenya
- Institutional support to the Kenyan transport sector
- Safe Roads (Usalama Barabarani) Programme
- Climate Proofed infrastructure - Rural roads in Arid and Semi-Arid Lands, Kenya
- Upgrading of the Mombasa-Mtwapa-Kilifi road section
- Regional Mombasa Port Road Access project (Mombasa - Mariakani, 41km)
- Regional Road Corridor "South Sudan Link" (Kitale-Morpus road, 75km)
- Sirari Corridor Accessibility and road safety Improvement: Isebania - Kisii - Ahero Road Rehabilitation, 172km

RETNet - Suswa Substation,
Narok.

CLIMATE & ENERGY: KES 81 BILLION (EUR 527 MILLION)

Powering Kenya's green transition by scaling renewable based electricity and last mile electrification, restoring vital watersheds and strengthening national climate institutions so communities and businesses can grow while adapting to climate change.

Projects:

- Green Resilient Electricity System
- Supporting a climate resilient watershed in the lake Baringo
- Support through the National Treasury to the Climate Change Directorate
- Reinforcement of the Electricity Transmission Network in Kenya (RETNet)
- Last Mile Connectivity Programme

Last Mile Connectivity of Schools
Ngei Primary School

DIGITAL: KES 19 BILLION (EUR 121 MILLION)

Turning Kenya's digital edge into inclusive opportunity by expanding affordable, climate-smart internet, digitising schools, TVETs and land services, and building skills so young people can access higher value digital jobs under strong data and AI governance.

Projects:

- Digital Land Governance Programme (DLGP)
- Last Mile Connectivity of Schools
- Digitalisation of Technical and Vocational Education Training (D4TVET)
- Capacity Building on World Bank's Development Impact Evaluation (DIME)
- Digital Transformation Centre: Supporting Kenya's Digital Transition
Towards a Sustainable and Human-Centred Digital Economy and Society
- Human Centred Digitalisation Phase II Kenya
