Bestshore model

What is Best Shore?

Outsourcing means more than serve your client from overseas delivery. FPT manages requirements with the most valuable benefit for the client.

With Best Shore FPT combines on site presence with near shore and off shore capabilities

With this model FPT is able to quickly react on each individual request. Our client benefits from all FPT locations while not need to care about the complexity behind it.

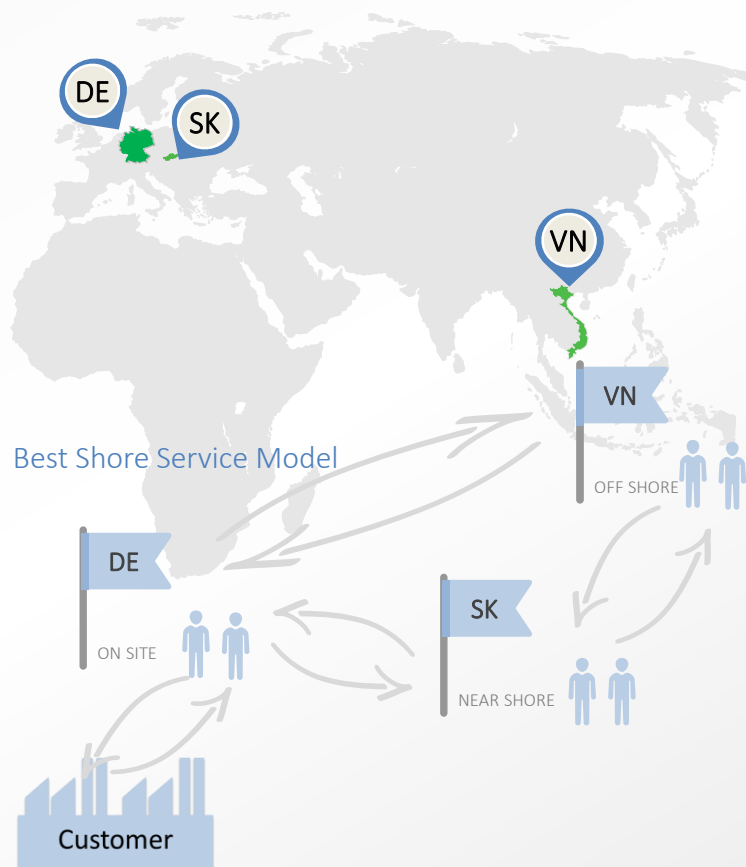

Slovakia as member of the European Union underlies the same (Data Protection) Law as Germany. Kosice as our location in SK is called Slovakia's IT Valley.

97 %
of our employees in SK speak English fluently

70 %
of our employees in SK speak German fluently

10
Years of experience in Utility Industry

91 %
of our employees have a University Degree

Vietnam

Regarding to Gartner, Vietnam is the new “place to be” for outsourcing with outstanding conditions.

Our resource pool in Vietnam with 18,000 IT experts allows us to serve our client with excellent services across the branches.

90 %
of our employees in VN speak English fluently

95 %
with University degree or higher
