

AGROMEK IS NORTHERN EUROPE'S LARGEST JOINT AGRICULTURAL EXPO

– VISIT AGROMEK AND MEET THE INDUSTRY'S LEADING SUPPLIERS

The Danish farmers are among the best in the world – at Agromek, you will meet their suppliers.

Join us and experience first-hand why Denmark is one of the leading drivers of agricultural efficiency, sustainability and animal welfare.

For our international visitors, Agromek offers a travel package to ease your visit. Read more about your options for visiting Denmark and the Agromek expo.

29 November – 2 December 2022

MCH Messecenter Herning, Denmark

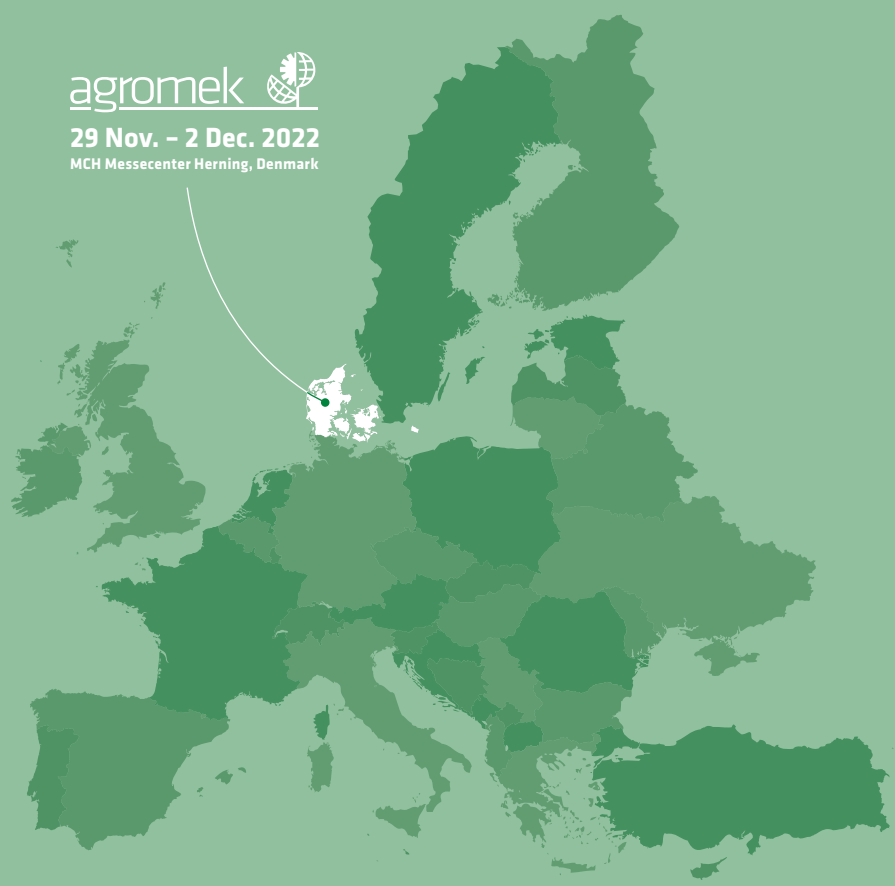

agromek 

Denmark is one of the leading agricultural countries in Europe – do you know why?

Denmark has a population of **5.8 million** inhabitants. However, thanks to generations of efficiency improvements and innovations aimed at reducing resource use, we can produce enough food to feed **15 million people**.

agromek 
29 Nov. – 2 Dec. 2022
MCH Messecenter Herning, Denmark

The environmental impact of producing one pig today is only half of what it was in 1985.

The average yield per cow today is close to the double of what it was 30 years ago.

LOWEST
IN EU

Consumption of antibiotics in Danish agricultural production is among the lowest in EU.

25%

During the past five years, we have reduced food waste by 25%.

12%

Around 12% of Danish farmland is cultivated organically.

20%

Biogas production is expected to account for more than 20% of the Danish natural gas consumption in the near future.

The key to our innovation

– The Danish Model

The productiveness of the Danish agricultural sector is in part due to **farmers**, **researchers** and **industry** working together to find solutions and ensure implementation on farms.

Farmers

Researchers

Industry

Meet the leading suppliers of future farming

The exhibitors at Agromek have identified and implemented the latest technology and methods to accommodate our new ambitious climate goals. At Agromek, you can learn from the best and become empowered with the tools and knowledge to be an industry leader.

VISIT AGROMEK
29 NOVEMBER – 2 DECEMBER 2022

Our goal for the future – climate neutral by 2050

However, one of the world's most pressing problems is still: How do we produce more food for a growing population and at the same time reduce the carbon footprint from food production?

To address the complex climate issues, the Danish food cluster has set out an ambitious vision of becoming climate neutral by 2050 while still maintaining – or even increasing – food production.

“ The Danish food cluster has set
an ambitious vision of becoming
climate neutral by 2050

What is Agromek?

Agromek unites the industry for four days of exhibition with more than **500 exhibitors from 17 countries**. You will gain unique access to suppliers from seven sectors of the agricultural industry – so you can plan your visit to meet your needs.

Agromek also offers a comprehensive list of events including an innovation area, a cattle show and an awards show, as well as conferences, professional seminars and networking events. Experience it all alongside more than **40,000 visitors from all over the world**.
