

Pridružite se nam na brezplačnem tehničnem seminarju s pestrim izborom predavateljev, strokovnih predavanj, uporabniških rešitev in novosti v svetu merilne tehnologije in testiranja. Predvsem pa izkoristite možnost druženja v sproščenem vzdušju s somišljeniki iz industrije in šolstva.

Skupaj z vabljenimi partnerji iz podjetij XJTAG, TMYTEK, Chroma, Versarum, Niksis in Yotta Volt vam bomo predstavili novosti, tehnologije in uporabniške rešitve v svetu meritev in avtomatiziranega testiranja. S potrebo po testiranju se vedno pogosteje v industriji srečujemo vsi, mnogi pa takšne tehnologije za testiranje v svoje procese vpeljujejo in s pridom uporabljajo že leta.

Prijavnico in podrobnosti o dogodku in predavanjih najdete [TUKAJ!](#)

Join us for a free technical seminar with a diverse selection of speakers, technical sessions, user solutions and innovations in the world of measurement technologies and automated testing. Above all, take advantage of the opportunity to network in a relaxed atmosphere with like-minded engineers from industry and education.

Together with invited partners from XJTAG, TMYTEK, Chroma, Versarum, Niksis and Yotta Volt, we will present you with innovations, technologies and user solutions in the world of measurements and automated testing. The need for testing is increasingly common in industry, and many of have been implementing and have experiences using such testing technologies in our processes for years.

You can find registration form and all the details about the presentations [HERE!](#)
