

Revizije že veljavnih ecodesign in labelling uredb

Pod drobnogledom so sledeči proizvodi:

- hladilni aparati - ecodesign zahteve: predviden sprejem nove uredbe v Q3 2026 ([Energy efficiency - ecodesign requirements for refrigerating appliances - revision \(europa.eu\)](https://europa.eu/energy-efficiency/ecodesign-requirements-for-refrigerating-appliances-revision))
- hladilni aparati - energijske nalepke: predviden sprejem nove uredbe v Q1 2025 ([Energy efficiency - EU energy labelling rules for refrigerating appliances - revision \(europa.eu\)](https://europa.eu/energy-efficiency/eu-energy-labelling-rules-for-refrigerating-appliances-revision))
- hladilni aparati z neposredno prodajno funkcijo - ecodesign zahteve: predviden sprejem nove uredbe v Q1 2025 ([Energy efficiency - ecodesign requirements for refrigerating appliances with a direct sales function - revision \(europa.eu\)](https://europa.eu/energy-efficiency/ecodesign-requirements-for-refrigerating-appliances-with-a-direct-sales-function-revision))
- hladilni aparati z neposredno prodajno funkcijo - energijske nalepke: predviden sprejem nove uredbe v Q2 2026 ([Energy efficiency - EU energy labelling for refrigerating appliances with a direct sales function - revision. \(europa.eu\)](https://europa.eu/energy-efficiency/eu-energy-labelling-for-refrigerating-appliances-with-a-direct-sales-function-revision))
- elektromotorji in pogoni s spremenljivo hitrostjo - ecodesign zahteve: predviden sprejem nove uredbe v Q2 2027 ([Energy efficiency - ecodesign for electric motors and variable speed drives - review \(europa.eu\)](https://europa.eu/energy-efficiency/ecodesign-for-electric-motors-and-variable-speed-drives-review))
