

## INVITATION

*Building Matters Erasmus+ Project: Mitigating climate change transition risks of the construction sector through building capacity in sustainable building materials*

### Transnational Interaction Roundtable

25 May 2023, Time 10:00 – 12:00 CET

Dear Madam/Sir,

The Panhellenic Association of Engineers Contractors of Public Works (PEDMEDE), Greece has the pleasure and honor to invite you to the online Transnational Roundtable with the theme: “Raise awareness and build competencies for sustainable decision-making in building materials selection”, part of the Building Matters project.

Building Matters project aims to support awareness raising of key stakeholders in sustainable pathways for mitigating climate change transition risks of the building sector. The project anticipates developing green sectoral skills and competencies in sustainable building materials, by introducing future-oriented and innovative curricula and learning practices tailored to the needs of learners, enabling sustainable behavioral changes in line with the New European Bauhaus initiative.

The transnational roundtable will take place on **25 May 2023 from 10:00 am until 12:00 pm (CET)**. This event aims to achieve common recommendations for inventorying sustainable building materials and awareness and competence on sustainable building materials. The purpose of this event is to exchange ideas and experiences regarding sustainable building materials.

The event will be conducted online over the Microsoft Teams platform. The link for the event is found in a separate document within the agenda regarding the event.

We look forward to seeing you at the Transnational Roundtable of Building Matters project.

Sincerely,

Michael Daktylidis  
President of PEDMEDE
