

Take advantage of our links what we do.

Athens 14 & 15 June 2022

Attracting and engaging construction workers-

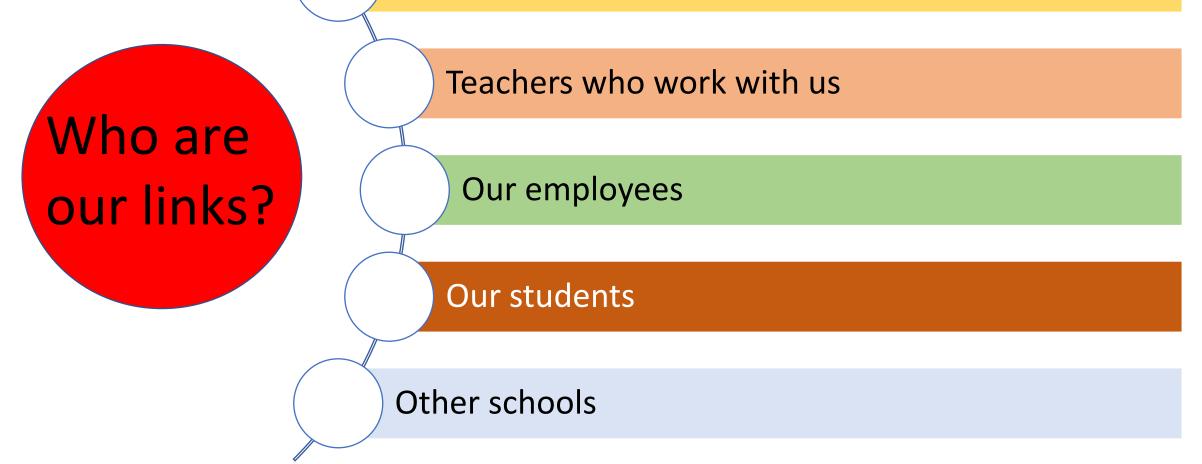

How to take advantage of our direct link or connection with companies to enhance our paths and our

schools

Companies registered in the association linked to us

Attracting and engaging construction workers-

What we have done so far

LET'S CAMPAIGN

we know exactly what companies in our sector need

Customized trainings

Attracting and engaging construction workers-

We involve entrepreneurs in the teaching courses to give more value to our courses

Attracting and engaging construction workers-

Study courses with latest techniques and updated methodology.

Thanks to our connection and the experiences we acquire on ERASMUS + project

Attracting and engaging construction workers-

Thanks to Erasmus projects, we are in a circuit that promotes the school nationally and internationally

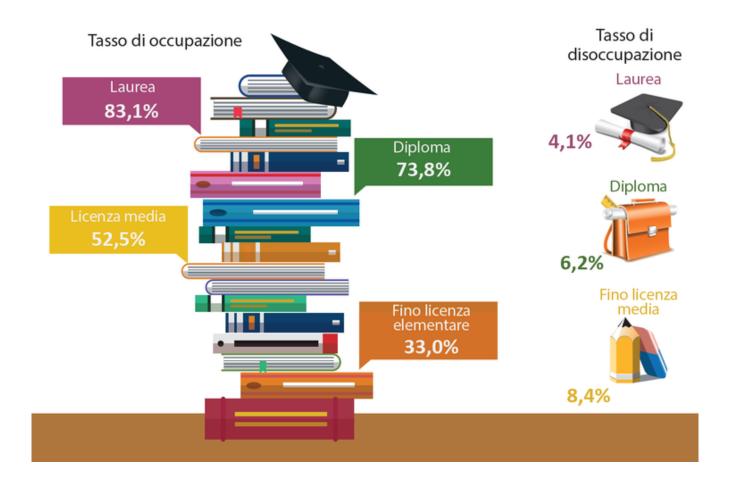

Erasmus+ EU programme for education, training, youth and sport

Attracting and engaging construction workers-How to take advantage of our direct link or connection with companies to enhance our paths and our schools

150% employment rate at the end of school

Attracting and engaging construction workers-How to take advantage of our direct link or connection with companies to enhance our paths and our

10

schools

Thanks to our connections our students have important and quality work experiences during their training path

Attracting and engaging construction workers-How to take advantage of our direct link or connection with companies to enhance our paths and our

Erasmus + Mobilities

Attracting and engaging construction workers-How to take advantage of our direct link or connection with companies to enhance our paths and our schools

Students graduated in our school get higher salaries thanks to the skills acquired and our connections with companies

Companies and families recognize the high-quality training of SCVAP and promote this aspect towards their contacts

Attracting and engaging construction workers-

SCAVP trains about 2.000 companies' workers per year on compulsory training (mainly Health & Safety) almost for free.

This is another way to get in touch with a lot of companies and workers to disseminate our activity.

The entrepreneurs who finance the school promote us : with their own connections, enroll their children in the school, enroll children of their friends.

The end
