

# ARE YOU

## **an ENTREPRENEUR?**

Do you own and direct a Small or Medium-sized enterprise in Europe? Do you feel the European Single Market should provide more business opportunities for SMEs?

We agree with you and we would like to tell you that your employees can become your experts on business opportunities with SMEs in other European countries. They could help you connect, open doors and overcome language barriers.

This can be done with no additional costs for you.

## **an EMPLOYEE?**

Do you work for a Small or Medium-sized enterprise in Europe? Would you like to gain new skills through an international experience while you open the doors to new business for the company you work for?

We can offer you this opportunity. You can have a unique international working experience while keeping your current position. You will be able to create new business opportunities for the company you work for, while gaining some very unique insights, improving your language and technical skills, as well as learning about another country, its culture and people.

This can be done with no additional costs for you.

The Mobilities for professionals and qualified employees of Micro, Small and Medium-sized Enterprises (MobiliseSME) project aims to open the way to more international labour mobility for SME employees and new business opportunities for SME entrepreneurs. A project funded by the EU, MobiliseSME will assess the feasibility of the idea of an “ERASMUS for SME-Employees”, a cross border mobility scheme for employees of MSMEs in the EU, and test it in practice.

Our vision for a European mobility program for MSMEs enables participating companies to send their employees to work for 1-2 months in a similar company in another European country and then come back to their workplace bringing with them new business opportunities in many possible fields: sub-contracting, import/export, distribution, market awareness and joint ventures.

It will give employees of SMEs who joined to gain new skills and knowledge about markets, technologies, methods, and products of similar industries in other EU-countries, as well as the chance to improve their language skills.

We want your staff to become your door to the European Single Market!

If you it sounds interesting look at our website [www.mobilisesme.eu](http://www.mobilisesme.eu) for our next activities, including:

- An online survey for you to let us know what you really want and expect from.

- 26 focus group meetings in 12 European countries plus Turkey, to say what you think about such a cross border exchange programme.

- From November 2016, you can join our pilot scheme for cross border exchanges. Send an employee (or ask to be sent) for an exchange and see him/her come back with new knowledge or hosts somebody who brings a new perspective.

MobiliseSME is about a win-win-win approach, where hosting SMEs, sending SMEs and employees are rewarded by being part of this project.

Project “Mobilities for professionals and qualified employees of MSMEs” MobiliseSME, co-financed by the EaSI Programme (PROGRESS) of the European Union, 2016-2017.
