

# BREXIT

# TLF Overseas

CLECAT Presentation  
2019 February 26<sup>th</sup>

In order to prepare Brexit, TLF OVS members need to hire at least 1000 customs clerks

TLF worked with training centers in order to define our needs for Brexit.

- customs competencies
- available as soon as possible (apprenticeship – 2 weeks / 2 weeks)
- a recognized diploma

TLF negotiated financial support with French organizations

- training 100% funded (OPCO) for internal or external candidates
- we have to pay : salary, travel expenses, accommodation

TLF is working on CEN European customs competencies certification

- development of customs courses to reach a new customs competencies certification
- test of competencies
- running pilot France-Italy

2 different trainings have been defined (1 year with a start in March or April)

CQP

Customs Clerk

Professional certificate - 210 hours  
Requirement: Bachelor degree

Recognized diploma - 420 hours (210 + 210)  
Requirement: Bachelor degree + 2 years

Both were already existing but TLF asked to change the training organization to get staff “ready to work” earlier.

→ First group should start March 18th

TLF has a Brexit working group to analyze actions to be launched and to share information.

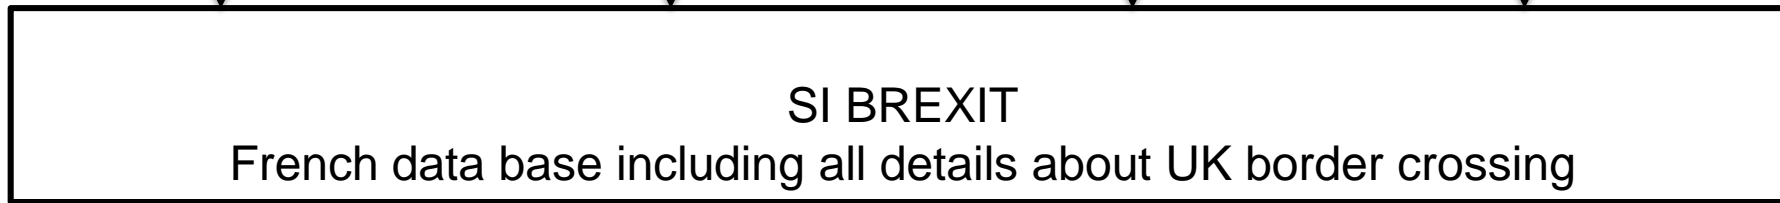

We are working with different actors like French Customs or Eurotunnel to understand new process for border management.

We planned a Brexit conference for our members in March 14<sup>th</sup> to share all information and to answer to questions.

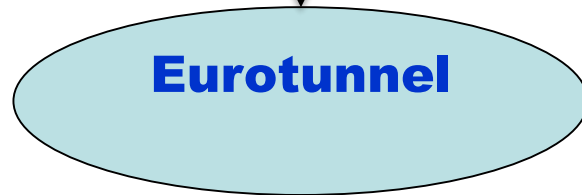

## A new "IT BREXIT TOOL"

Fallback procedure to be defined

French  
Customs  
IT systems

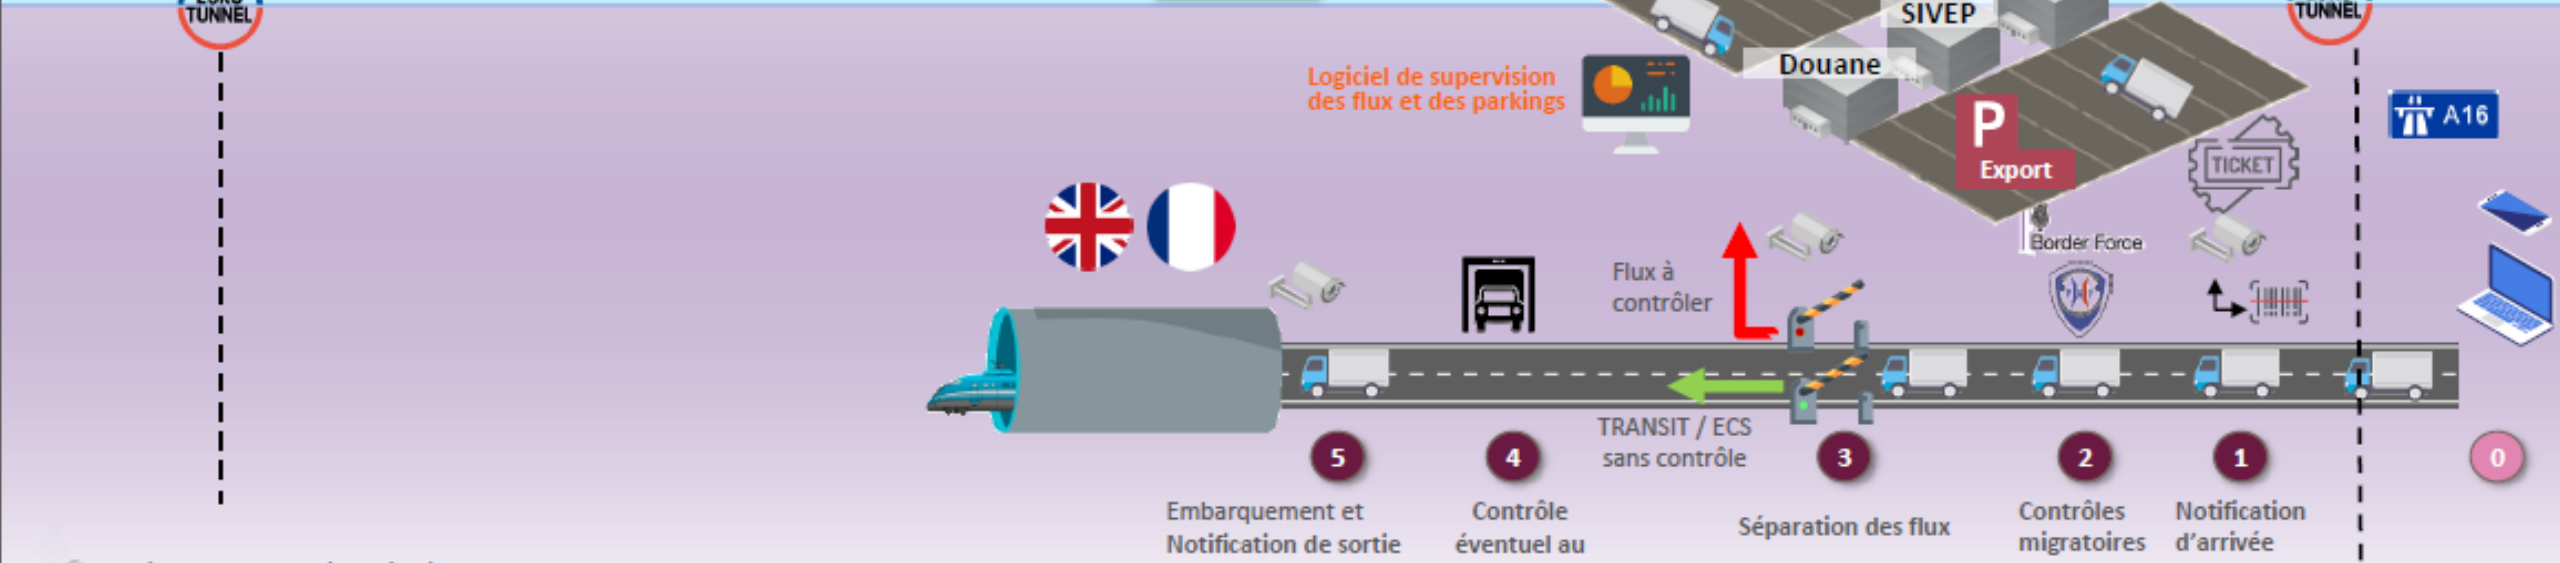

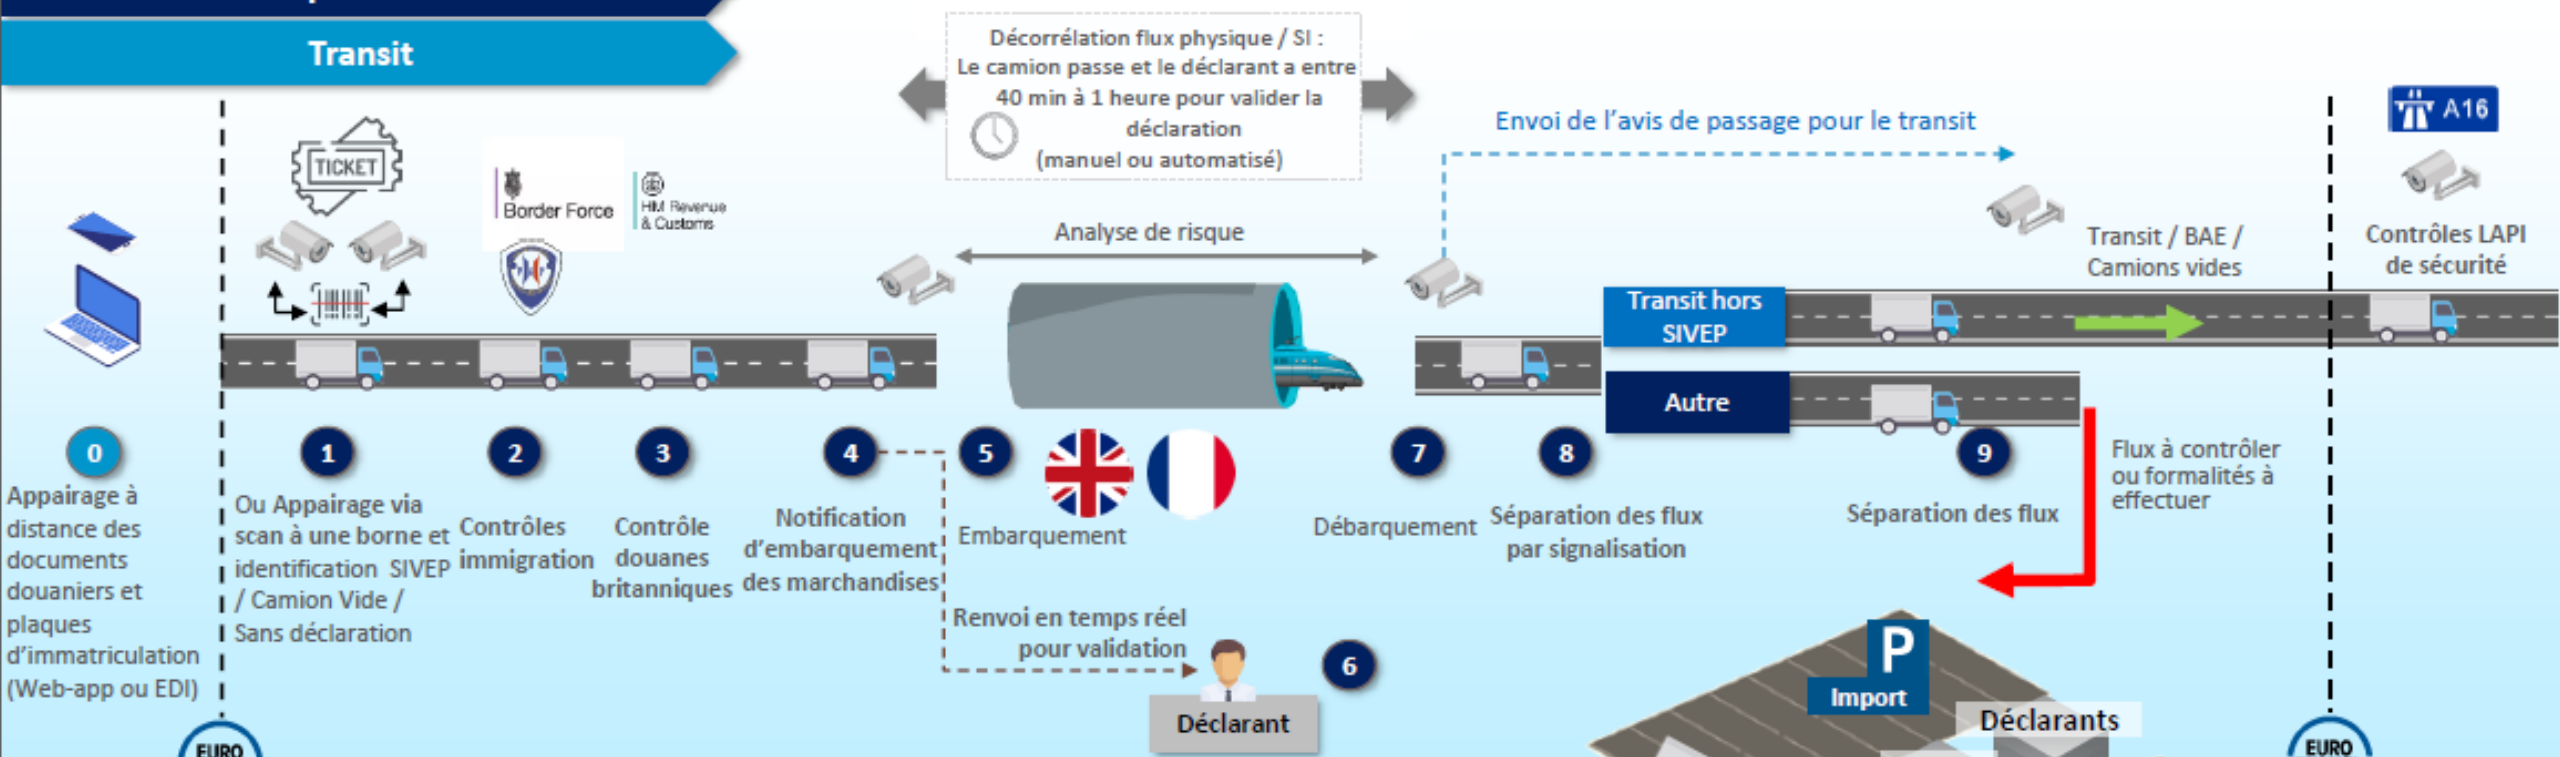

Ports/ Ferry/  
Tunnel IT  
systems

# Importation

## Transit

## Exportation / Transit

Lecteur automatique de plaques d'immatriculation appartenant à Getlink

# Anticipation

The new border management will require anticipation before loading on both sides

Exports

UK Transit  
or French anticipated import  
declaration  
or French anticipated transit

Imports

Transit notification  
Full or simplified import  
declaration

Transit notification at destination  
or anticipated import declaration  
validation

Prelodged UK import declaration

Imports

Exports  
And/or transit

This scheme is without ENS/ ICS (Import Control System)
