Based on Brazilian regulation RFB N° 1727 published on 10 August 2017
ATA Carnets are accepted for goods transported as cargo/freight and goods carried by the traveler (hand-carried or check-in goods accompanied by the traveler).

Based on Brazilian regulation RFB N° 1763 published on 21 November 2017
ATA Carnets issued/guaranteed by all members to the ICC WCF international guarantee chain will be accepted in Brazil, provided that the terms, limits and conditions established at the Istanbul Convention, promulgated by Decree 7,545, of 2011, are observed.

Languages in which Carnets should be completed

ATA Carnets may be completed in Portuguese or English. The Customs may require a translation when ATA Carnets are completed in any other language.

Replacement carnet: Yes, in accordance with Article 14, Annex A of the Istanbul Convention

Customs offices: All Customs offices in Brazil are entitled to handle ATA Carnets for the purposes of Customs clearance during opening hours. A list of the customs offices and their hours of operation is available at: <https://idg.receita.fazenda.gov.br/orientacao/aduaneira/importacaoe-exportacao/recinto-alfandegados>

Special observations: CNI would like to draw your attention that in Brazil, in case of the box B - "Represented by" be filled only with "Authorized person". Based on the attached guidelines on the model of power of attorney produced by the Brazilian Ministry of Foreign Affairs, all types of power of attorney (letter of authorization) must be legalized at the Brazilian embassy/consulate in the issuing country. Therefore, to avoid unexpected delay and problems in relation to the PoA (holders' representatives) of an ATA Carnet, it is highly recommended to mark the name(s) of the holder's representative (private or legal entity who is authorized to declare goods to Brazilian Customs) in Box B of the vouchers used in Brazil.

To help NGAs calculate the guarantees required from holders wishing to use Carnets for Brazil, CNI has developed a calculator of the average taxes imposed on imports for each chapter of the Harmonized System (HS). Upon identification of the HS product code, the system will give you the customs value of the good and the average taxes imposed upon their import to Brazil. It will also generate the final customs value of the goods, including taxes.

The "Customs Value" is equivalent to the CIF value which is the cost, insurance, and freight.

The calculator is attached.
