POWER ENGINEERING FOR INDUSTRY '2019

Generation – Transmission - Distribution

In 2003 while hosting the Executive Assembly of the World Energy Council in Kyiv the 1st editions of the International Trade Fair "Power Engineering for Industry" and the International Forum "Fuel and Energy Complex of Ukraine: the Present and the Future" were held.

The long-term development of the Forum and Trade Fair has resulted in recognition of the importance and relevance of the events at the state and professional level. Since 2004, the events have been being held by the Resolution of the Cabinet of Ministers of Ukraine.

Organizers:

Ministry of Energy and Coal Industry of Ukraine

International Exhibition Centre

Today, the Forum and the Trade Fair confirm their status of the leading industry event and the main meeting place for top management and professionals of three key audiences – industrial producers and electric power companies, technology manufacturers and suppliers, state authorities.

POWER ENGINEERING FOR INDUSTRY '2019

Generation – Transmission - Distribution

Power generation

Power, industrial boilers
Steam turbines, hydraulic turbines
Gas turbines, combined-cycle gas turbines (CCGT), compressors, blowers
Nuclear island equipment
Heat/energy recovery units
Heat exchangers
Auxiliary boiler and turbine equipment
Industrial burners, combustion systems
Power plant valves, pipes, fitting
Pumps / Compressors / Fans
Water treatment systems / Cooling towers
Thermal insulation of power equipment and heating networks
Power plant waste management

Electric power transmission and distribution

Power transformers, auto-transformers, reactors
High voltage switching and protection devices
Instrument current and voltage transformers
High voltage switchgear
Power conversion equipment, power electronics
Package substations
Medium, low voltage switchgear and switchboard
Standby power supply systems
Explosion-proof electrical equipment (Ex)
Earthing, lightning protection, electrical protection systems
Accumulators, chargers
Heavy-current capacitors and inductors
Electrical isolation of power supply systems
Overhead power lines. Poles, insulators
Hardware, surge protection equipment
Cables and wires, bare conductors
Cable laying systems

Automation, metering, control

Automated process control systems for power plants, power units, substations, power grids
Power dispatching automation systems
Relay protection and emergency control systems
Automated commercial power metering systems
Smart Grid components and systems
Software and hardware complexes of automation
Industrial power supply system automation
Power equipment condition monitoring
Control and measuring instrumentation
Systems of technical protection of information
Cybersecurity

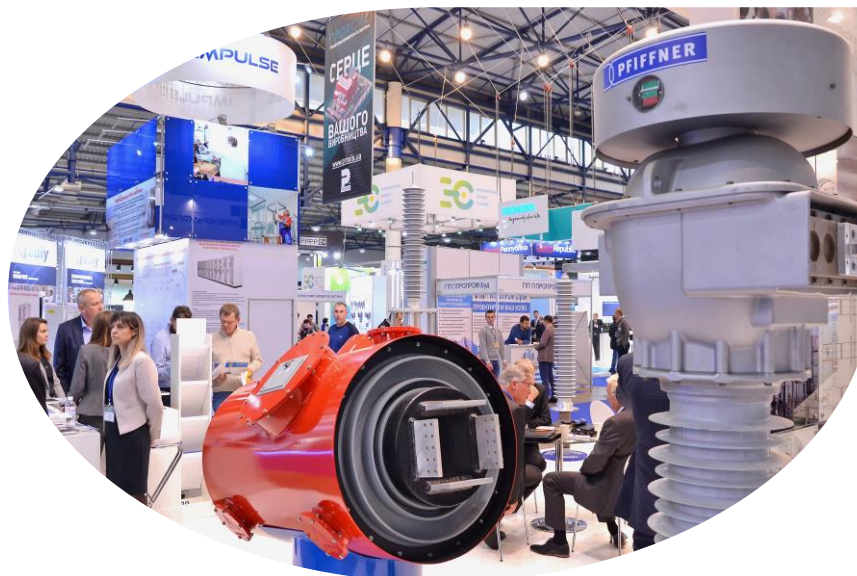

November 5-7, 2019
International Exhibition Centre
Kyiv - Ukraine

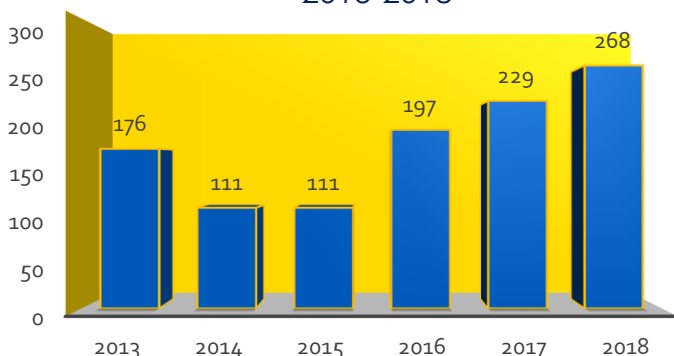

XVI International Trade Fair
POWER ENGINEERING FOR INDUSTRY '2018
November 6-8, 2018

Statistics 2018

Gross exhibition space, sq. m	8423
Net exhibition space, sq. m	4317
Exhibitors	268
Visitors	7032

Number of exhibitors
2013-2018

BUSINESS PROGRAM

- ❖ Roundtable "Water Management in the Power Sector and Ways of Further Hydropower Development in Ukraine"
- ❖ Roundtable "Background of Smart Grid Implementation in Ukraine"
- ❖ Nuclear Power Day
- ❖ Scientific and Practical Conference "Standardization, Conformity Assessment and Market Supervision in Electrical Engineering. Problems of the State Purchases System and their Solution. European Integration Changes"
- ❖ The V All-Ukrainian Power Engineers Workshop "Formation of Technological Basis of Distribution Power Grids Modernization with Appliance of the Smart Grid Concept"
- ❖ Panel Discussion "IT and Cybersecurity in the Fuel and Energy Sector"

Participant statements on Power Engineering for Industry '2018

Oleksii Balaba, Director of Energy Production and Service Department of Siemens Ukraine

«It is a significant event which is held annually in November to show advanced solutions of key companies - the international players who offer the most important solutions for Ukrainian electric power market»

Mantas Nashlenas, Head of the International Energy Cluster

«We are pleased to participate in this trade fair, because it is a splendid opportunity to introduce ourselves to the energy sector companies, as well as to present our Cluster»

Mykhailo Bubnov, General Director of Schneider Electric Ukraine

«It's nice that we have been participating in "Power Engineering for Industry" for several years, the trade fair has changed a lot in recent years. We are planning to participate in the next trade fair, it is growing, its practical focus is visible»

Andrii Maksymets, Director of Phoenix Contact in Ukraine

«We are participating in the trade fair "Power Engineering for Industry '2018" for the first time and we are satisfied with the quality of the contacts that we have managed to get. We hope that the event will succeed and the number of visitors will grow»

Volodymyr Dryomov, Director of Sicame Ukraine

«This year there are more our customers here, more of our colleagues are exhibiting. We are very pleased to present our innovative solutions for Ukrainian power grids. These are connectors with low transition resistance, cold shrink couplings, solutions for rigid busbars of substations, as well as special software for electrical grids automation»

XVII International Trade Fair

POWER ENGINEERING FOR INDUSTRY '2019

November 5-7, 2019 International Exhibition Centre, Kyiv - Ukraine

Price-List No. 1

Administration Fee	Exhibitor details in the trade fair catalog, at IEC website, visiting invitation tickets (electronic format, number is not limited)	€186
Raw exhibition space	Non-equipped space inside the exhibition hall for self-construction	€151 / sq. m
Shell scheme booth	Standard equipped exhibition booth	€179 / sq. m
Outdoor display	Non-equipped space at the open-air site near the exhibition hall for equipment display	€53 / sq. m
Conference-hall	Furnished conference-hall	€132 / h
Color advertising in the trade fair catalog	1 page A5 format	€250

Participation terms

Exhibition stand type extra charges:
 corner (2 open sides) – 1.2
 half-island (3 open sides) – 1.25
 island (4 open sides) – 1.3

Shell scheme booth standard equipment (per 9 sq. m)

Wall panels	- 100 x 250 cm	
Carpeting	- standard color - blue	
Fascia panel with booth name and number	panel height — 30 cm, length – by stand's open sides	1 - 4
Table (square or round)	75 x 75 cm	1
Chair (padded)		2
Socket 220 V	2,2 kW	1
Spotlight	100 W	2
Wall coat hanger, wastepaper basket		1

Raw exhibition space

You can order design and manufacture of your exhibition stand at specialized stand building companies.

Any company supposed to install an exhibition stand must get accreditation at the International Exhibition Center before mounting start on November 3, 2019.
