

Ukrainian
Maritime Cluster

PU Ukrainian Maritime Cluster

VISION

Ukrainian Maritime Cluster becomes the connection point for entire maritime sector that links with other players, global and national policy makers, and maritime organizations

MISSION

The facilitation of Ukrainian maritime economy development through the consolidation of waterborne companies

MAIN ACTIVITIES

Formation of economic, technological, and political environment for the development of the Ukrainian maritime economy

Support for global integration and growth of international competitiveness of cluster members

Brief history of UMC

- In August 2020 a legal entity PU “Ukrainian Maritime Cluster” was founded
- Main players of Ukrainian maritime sector - shipping, shipbuilding, ports and engineering - generate an annual turnover (based on 2019) of € 1,4 billion and create more than 50,000 direct jobs in 1200 companies. The data is taken from the industry overview developed within the project scope. Thus, there is great potential to further unite industry players, grow the number of the members and make impact on industrial ecosystem!
- UMC is national cluster, which started from Mykolaiv region, expanded to Kherson, Odesa and Kyiv, currently representing Ukraine towards international maritime community
- In July 2022 the number of UMC members is 32 entities, including partner organizations (Ministries, Academia, Mykolaiv City Council, RCCI, military unit etc.) with full and associated type of membership and per MoUs
- In August 2022 signing of MoU with UkrSudProm Association is foreseen according to which mutual membership will involve about 50 members of Ukrainian Marine Industry

UMC activities – for future Ukraine!

- 1. Mykolaiv Defense Cluster initiative to support Ukrainian Army:**
 humanitarian and military supplies, support of Southern front units and the Navy
- 2. CINEA project 4BIZ - activities to support Ukraine together with consortium partners in Romania, Bulgaria, Turkey, Georgia:**
 relocation, b2b matching, dual education/dual diplomas, sustainable blue economy innovation startups
- 3. UMC in Ukrainian Cluster Alliance:**
 internationalization, investment funds, b2b matching, industry 4.0 initiatives
<https://www.industry4ukraine.net/category/publications/clusters-of-ukraine/>
- 4. Partnership with TIASI**
 support universities, investment funds, GR activities, blue growth initiatives
