

**WAGM**  
EXPO

## International Exhibition

of equipment and technologies for municipal and industrial emissions treatment, dust and gas purification

Supported by

UKRAINIAN CHAMBER  
OF COMMERCE AND INDUSTRY

# Waste Air & Gas Management 2018

27-28th of November  
Kiev, Ukraine, The Ukrainian CCI

Organiser

**Business-Forum**

The meeting of professionals  
in the field of air & gas treatment

## \$ 28.6 billion - total amount of necessary investments in the waste air & gas treatment industry of Ukraine.

The Association agreement between EU and Ukraine provides phased implementation of European environmental legislation in Ukraine.

According to the Directive 2010/75/EU on industrial emissions all power plants with a capacity of more than 50 MW (today there are 147 of them in Ukraine) have to significantly (dozens of times) reduce emissions of sulfur dioxide, nitrogen oxide and dust.

The National emission reduction plan in the energy sector of Ukraine, which is currently under discussion in the government, provides phased modernization of existing power units. In particular, use of wet and semi-dry desulfurization technologies, fabric filtration, selective non-catalytic and catalytic reduction. The cost of this program is 2.6 billion USD. Also this plan requires investments of 21 billion USD in the construction of new power units that fully comply with European environmental legislation.

The National emission reduction plan in the mining and metallurgical industries of Ukraine provides the reconstruction of dust and gas purification facilities worth about 5 billion USD.

### EXPERT COUNCIL

Valery Baranov, Deputy Director for reforms, **Association of Ukrainian Cities**

Oleksandr Mazurchak, First Vice President, **Mayors club**

Roman Skilsky, Executive Director, **UKRCEMENT (Association of Cement Producers of Ukraine)**

Talgat Temirkhanov, Director of Ecology and Industrial Safety Department, **Republican Association of Mining and Metallurgical Enterprises of Kazakhstan**

Liana Maksymenko, Director of Environmental Protection Department, **ArcelorMittal Kriviy Rig**

Vladislav Belous, Head of Environmental Protection Department, Industrial Safety and Environmental Management, **METINVEST HOLDING**

Igor Chernyak, Director of labor protection, industrial and technogenic safety, **Zaporizhstal**

Sergey Sergeev, Director of Environmental Protection, **EVRAZ Ukraine**

Svitlana Tishchenko, Deputy Director for Industrial Safety, Labor Protection and Environment, **Interpipe Ukraine**

Iryna Verbitska, Head of Environmental Security Department of Electricity Generation Directorate, **DTEK**

Vladimir Ryabich, Deputy Technical Director for Operations and Environmental Issues, **Donbassenergo**

Andrey Perekhrest, Technical Director, **Azot, Cherkassy city**

Andriy Vagin, Deputy General Director for Ecology, **Ukrainsky Grafit**

### PARTICIPANTS:

- suppliers of equipment, materials, services and technologies for air quality monitoring, industrial and municipal emissions treatment, industrial dust and gas purification, dust removal and odor control
- municipal and private enterprises of fuel and energy complex
- enterprises of mining and metallurgical enterprises
- cement industry enterprises, asphalt-concrete plants, producers of building materials
- elevators, grain terminals, ports
- woodworking and furniture enterprises
- pharmaceutical and medical enterprises
- food industry enterprises
- operators of incineration plants and hazardous waste disposal facilities
- state and local authorities
- banks, investment companies, financial institutions
- design, engineering and consulting companies, law firms
- scientific and educational institutions

### EXHIBITION TOPICS:

- Environmental monitoring systems, equipment for analysis, control and accounting of emissions to the atmosphere
- Equipment and technologies for chemical, electromechanical, catalytic and biological treatment of municipal and industrial emissions
- Equipment for industrial gas treatment and air aspiration
- Dust suppression systems, dust-free handling of bulk materials and transportation of captured materials
- Industrial ventilation and climatic equipment, smoke removal systems
- Automation of gas treatment and aspiration processes
- Filtering materials
- Audit, design and engineering of industrial gas treatment, air aspiration and dust removal facilities
- Odor control

### SPECIALIZED SEMINARS:

- › Emissions treatment and air aspiration of fuel and energy complex enterprises
- › Emissions treatment and air aspiration of mining and metallurgical enterprises
- › Emissions treatment and air aspiration of cement industry enterprises and producers of building materials
- › Emissions treatment and air aspiration of chemical and petrochemical enterprises

### ORGANISER

**Business-Forum Ltd** specializes in organisation and conducting of international and regional conferences and exhibitions.

Since 2003 we have organised more than **250 conferences** and over **75 000 specialists** from **92 countries** have attended our events.

Industries we cover: **mining, metallurgy, transportation, chemical, ecology**

#### VENUE

**The Ukrainian CCI**  
33, Velyka Zhytomyrska str.  
Kiev, Ukraine  
[www.chamber-plaza.com](http://www.chamber-plaza.com)

The Ukrainian Chamber of Commerce and Industry in the center of Kiev has the multifunctional platform for organising events such as exhibitions and conferences of various sizes and formats.
