

International Exhibition

of equipment and technologies for municipal and industrial sewage treatment

Supported by

Waste Water Management 2018

24-25th of April, Kiev, Ukraine, The Ukrainian CCI

7 billion USD - total amount of necessary investments in the water industry of Ukraine

The Association agreement between EU and Ukraine came into force in 2017 and provides:

- implementation of **European environmental legislation** in Ukraine
- **providing the central water supply and sewerage services** in all towns with a population of more than 2000 people
- **introduction of tertiary sewage treatment** from nitrogen and phosphorus compounds
- **reconstruction of 35%** of water supply and sewerage **networks**
- **replacement of 40%** of water supply and canalization **equipment**
- **reconstruction of 25%** of existing WWTPs
- **installation of new water purification facilities for 85%** of industrial enterprises

Exhibition Sections:

- Drainage systems and sewerage
- Waste water treatment
- Sludge treatment and biogas energy
- IT, monitoring and dispatching
- Financing, design, engineering, construction

NEW in 2018!

- Conference "**Industrial water supply and disposal**"
- Conference "**Engineering networks** of water supply and disposal"
- Seminar "**Pumping equipment** for sewerage and drainage"
- Seminar "**Local waste water treatment facilities**"
- Seminar "**MSW landfill leachate treatment**"

Participants of the exhibition:

- suppliers of equipment and integrated solutions for sewage treatment
- water utilities ("vodokanals")
- financial institutions
- construction and engineering companies
- state and municipal authorities

Participation in the exhibition allows to **present products and services to professionals** in the field of sewage treatment in Ukraine, **which make key decisions** at the national and regional levels.

Detailed information is available on the website wwm-expo.com

We invite everyone to a meeting of sewage treatment professionals in Kiev!
