How much knowledge in 1 cubic centimeter?

Dear Business Partners,

Technology is shaping the future. »Internet of Things - IoT« is new paradigm. You need to know and understand it to be competitive in global market.

We are organizing 1st cross-border workshop on the new opportunities of »Internet of Things« thanks to strategic international cooperation project between Italy and Slovenia, confirmed and supported by European Union. The EU is putting big efforts to shape new business opportunities based on Information & Communication Technologies (ICT) , manifested by huge financial resources for 2014-2020 period.

Having a better knowledge of this emerging technologies will help small and medium size companies to gain new competitive potential and enable them to cooperate and apply for new EU grants.

We are setting up cross-border team of dynamic cutting edge companies that want to invest their resources and cooperate with other regional partners to capture new business opportunities in business area with 15 % annual growth rate.

Enclosed to this letter you shall find Brochure with detail description of the "IoT" project and with instructions how to join this activities. Participation is free of charge.

We are also inviting you to participate on "Internet of Things" Roundtable which shall be held on April 8th 2013 at Area Science Park, Padriciano 99, 34149 Trieste - Italy. Agenda and detail instructions can be found in attached Brochure.

Looking forward to work with you.
