

## HORIZON 2020

Societal Challenge 2: Food Security, Sustainable Agriculture and Forestry, Marine and Maritime and Inland Water Research and the Bioeconomy

Dr. Patrik Kolar
European Commission
DG Reseach and Innovation
Directorate for Biotechnologies,
Agriculture and Food

#### The Multiannual Financial Framework 2014-2020:

**European Council conclusions, 8 February 2013** 

**Key challenge:** stabilise the financial and economic system while taking measures to create economic opportunities

1. Smart & inclusive growth (€451 billion)

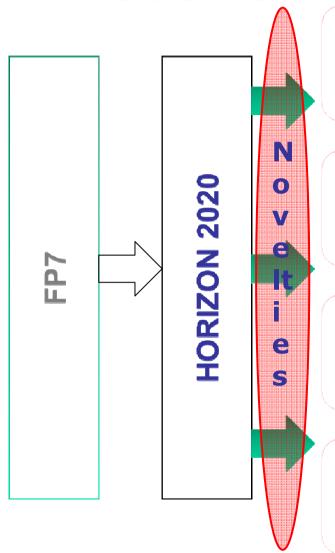

- 2. Sustainable growth, natural resources (€373 billion)
- 3. Security and citizenship (€16 billion)
- 4. Global Europe (€58 billion)
- **5. Administration (€61.6 billion)**

What's new

A single programme Bringing together three separate programmes/initiatives

Coupling research to innovation

• From research to retail, all forms of innovation

Focus on societal challenges  Facing EU society, e.g. health, clean energy and transport

Simplified access For all in all EU countries and beyond

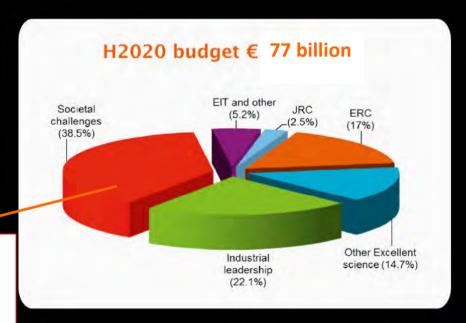

- 1. Health, demographic change and wellbeing
- 2. Food security, sustainable agriculture and forestry, marine and maritime and inland water research, and the bioeconomy
- 3. Secure, clean and efficient energy
- 4. Smart, green and integrated transport
- 5. Climate action, resource efficiency and raw materials
- 6. Inclusive, innovative and reflective societies
- 7. Secure societies

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

Budget for SC2:<
€3,8 billion
= More than
double of budget
under FP7

**Biggest EU investment in Research and Innovation** 

Research and Innovation

# Societal Challenge 2: Food Security, Sustainable Agriculture and Forestry, Marine and Maritime and Inland Water Research and the Bioeconomy

# Societal Challenge 2: Food Security, Sustainable Agriculture and Forestry, Marine and Maritime and Inland Water Research and the Bioeconomy

#### **Activities:**

Agriculture and forestry

Agri-food sector for a safe and healthy diet

Aquatic living resources

Bio-based industries and bioeconomy

Marine and maritime research

## **Activity 2.1. Sustainable Agriculture** and Forestry

- 2.1.1. Increasing **production** efficiency, coping with **climate change**, while ensuring **sustainability and resilience**
- 2.1.2. Providing ecosystem services and public goods
- 2.1.3. Empowerment of **rural areas**, support to policies and rural innovation
- 2.1.4. Sustainable Forestry

## **Activity 2.2 Sustainable and competitive agri-food sector for a safe and healthy diet**

2.2.1. Informed consumer choices

2.2.2. Healthy and safefoods and diets for all

• 2.2.3. A sustainable and competitive **agri-food industry** 

## Activity 2.3. Unlocking the potential of aquatic living resources

 2.3.1. Developing sustainable and environmentally-friendly fisheries

• 2.3.2. Developing competitive and environmentally-friendly **European aquaculture** 

 2.3.3. Boosting marine and maritime innovation through biotechnology

## Activity 2.4. Sustainable and competitive bio-based industries and (...) bioeconomy

Full title: Activity 2.4. Sustainable and competitive bio-based industries and supporting the development of a European bioeconomy

2.4.1. Fostering the **bioeconomy** 

for bio-based industries

2.4.2. Developing integrated **biorefineries** 

2.4.3. Supporting market development for bio-based products and processes

\*Most activities related to sustainable and competitive bio-based industries as defined in the Horizon 2020 Specific Programme will be implemented through the Joint Technology Initiative (JTI) on Bio-based Industries.

## Activity 2.5. Cross-cutting marine and maritime research

2.5.1. Climate change impact on marine ecosystems and maritime economy

2.5.2. Developing the potential of **marine resources** through an integrated approach

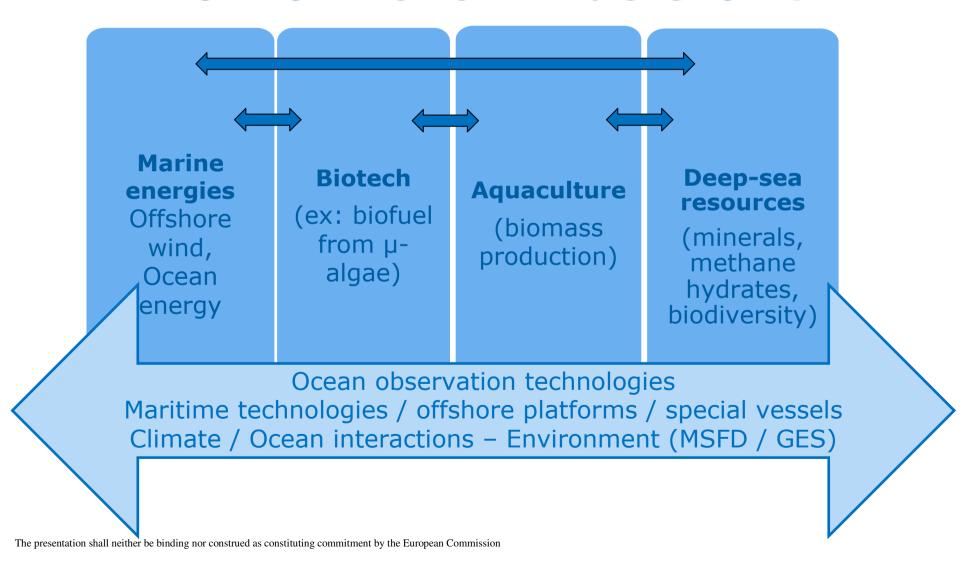

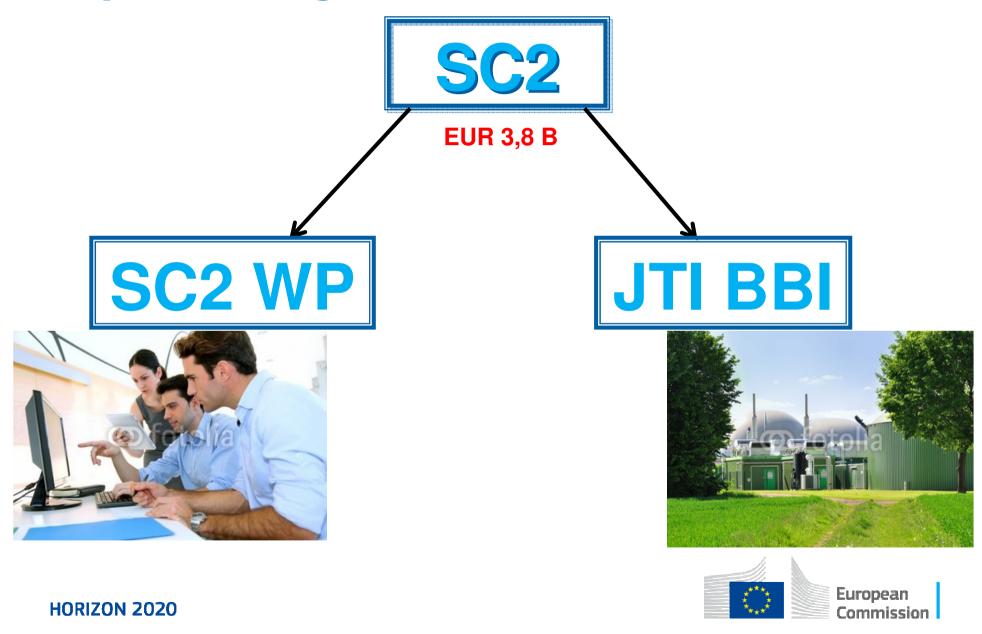

2.5.3. Cross-cutting concepts and technologies **enabling maritime growth** 

## **Activity 2.5. Cross-cutting marine and maritime research**

## **Horizon 2020 - Blue Growth**

## A strategic programming approach

Work programme preparation based on strategic programming exercise for the next three years

To increase impact of the funding, and a more integrated approach

Leitmotiv of the first work programme is the economic crisis and the path to sustainable growth - Horizon 2020 can make a significant contribution to this effort

Identify 12 focus areas on which resources and effort will be concentrated for maximum impact

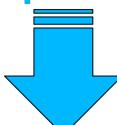

## **Specificities of the new Framework Programme**

**Challenge-based approach Less prescription Broader topics** Simplified list of possible types of action **Cross-cutting issues mainstreamed** Work programmes with a 2 yearduration

**Specificities of the new Work Programme** 

It reflects the challenge-based approach of H2020:

## Specific Challenge

 sets the context, the problem to be addressed, why intervention is necessary

## Scope

 delineates the problem, specifies the focus and the boundaries of the potential action BUT without overly describing specific approaches

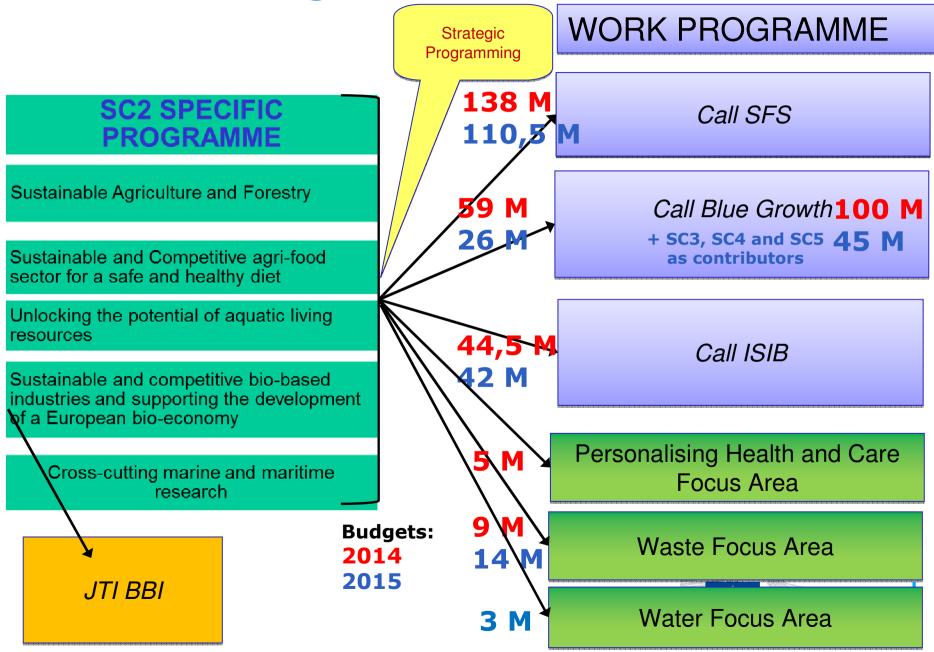

## Expected Impact

 describe the key elements of what is expected to be achieved in relation to the specific challenge

European

Commission

SC2 Work Programme 2014-2015

### **SC2: Three calls**

Sustainable Food Security

- Sustainable food production systems
- Safe food and healthy diets and sustainable consumption
- · Global drivers of food security

**Blue Growth** 

- Sustainably exploiting the diversity of marine life
- New offshore challenges
- Ocean observation technologies/systems
- Socio-economic dimension engagement with society

Innovative, Sustainable and Inclusive Bioeconomy

- Sustainable agriculture and forestry
- Sustainable and competitive bio-based industries
- Cross-cutting actions covering all the activities

## **SC2: Sustainable Food Security Call**

#### **Examples of topics:**

#### 1. Sustainable food production systems

- SFS-1-2014/2015: Sustainable terrestrial livestock production
- SFS-2-2014/2015: Sustainable crop production
- SFS-8-2014/2015: Resource-efficient eco-innovative food production and processing
- SFS-9-2014: Towards a gradual elimination of discards in European fisheries

### 2. Safe food and healthy diets and sustainable consumption

- SFS-12-2014: Assessing the health risks of combined human exposure to multiple food-related toxic substances
- SFS-13-2015: Biological contamination of crops and the food chain
- SFS-14-2014/2015: Authentication of food products
- SFS-15-2014: Proteins of the future
- SFS-16-2015: Tackling malnutrition in the elderly
- SFS-17-2014: Innovative solutions for sustainable novel food processing

### 3. Global drivers of food security

 SFS-19-2014: Sustainable food and nutrition security through evidence based EU agro-food policies

### SC2: Blue Growth Call

#### Sustainably exploiting the diversity of marine life

- BG1-2015: Atlantic marine ecosystems
- BG2-2015: Effects of climate change on F&A
- BG3-2014: Novel marine biomolecules
- BG4-2014: Potential of marine derived enzymes

#### **New offshore challenges**

- BG5-2014: Innovative offshore economy
- BG6-2014: Sub-sea technologies
- BG7-2015: Response capacities to oil spills and marine pollutions

#### Ocean observation technologies/systems

- BG8-2014:Atlantic Ocean observation
- BG9-2014: Acoustic and imaging technologies

#### **Horizontal aspects**

- BG10-2014: Competitiveness of Seafood markets
- BG11-2014: Monitoring, disseminating and valorizing research outputs
- BG12-2014/2015: SME instrument
- BG13-2014: Ocean literacy
- BG14-2014: Atlantic Ocean Cooperation Research Alliance
- BG15-2014: Polar research

## **SC2: Innovative, Sustainable and Inclusive Bioeconomy Call**

### Sustainable Agriculture and Forestry

- ISIB-1-2014: Provision of public goods by EU agriculture and forestry: Putting the concept into practice
- ISIB-2-2014/2015: Closing the research and innovation divide: the crucial role of innovation support services and knowledge exchange
- ISIB-3-2015: Unlocking the growth potential of rural areas through enhanced governance and social innovation
- ISIB-4-2014/2015: Improved data and management models for sustainable forestry

### Sustainable and competitive bio-based industries

- ISIB-5-2014: Renewable oil crops as a source of bio-based products
- ISIB-6-2015: Converting CO2 into chemicals
- ISIB-7-2014: Public procurement networks on innovative bio-based products

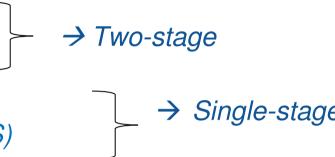

### Cross-cutting actions covering all activities

- ISIB-8-2014: Towards a sustainable Bioeconomy (Communication and dissemination activities)
- ISIB-9-2014 to ISIB-14-2014/2015: Support to ERANETS and JPIS

### SC2: WP 2014-2015

### **Types of actions:**

- 29 Research and Innovation Actions
- •2 Innovation actions
- •13 Coordination and Support actions
- •1 ERANET Cofund (but 6 possible ERANETS)
- •2 SME instrument → multiple deadlines

## **Budget and expected results:**

- •2014: EUR 250 M → ~49 projects (average EUR 5,2M / project)
- •2015: EUR 200 M → ~36 projects (average EUR 5,5M / project)

### SC2: WP 2014-2015

## **Cross-cutting issues mainstreamed**

SME: FP7:>15% H2020:>20%

- 2 SME instrument topics (5% of budget)
- SME-friendly topics

#### SSH integrated throughout the WP

- SSH dedicated topics
- SSH encouraged in other topics

#### **Targeted International Cooperation**

General opening of all topics

Open Access: participants can opt in the pilot projects on Open Access to Data

## **Characteristics of projects I**

## Variety of type of actions

 But mainly Research and Innovation, though going more towards innovation

## Variety of type of **beneficiaries**

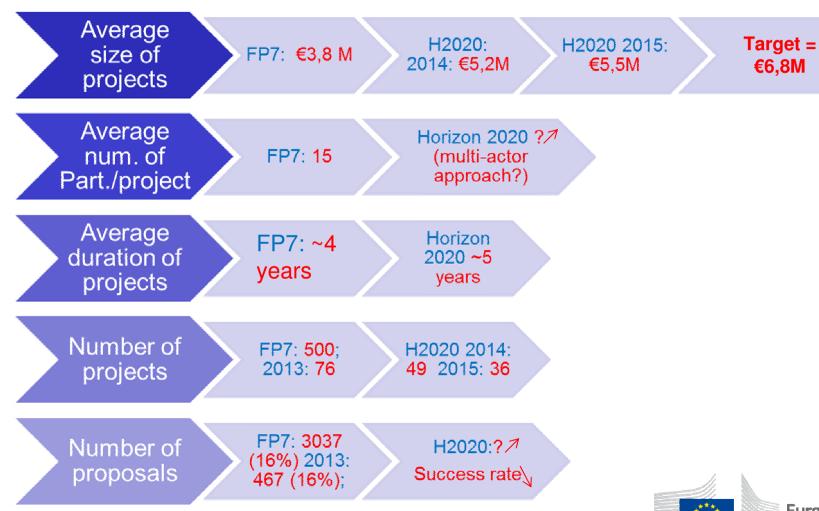

From research institutions to industries and farmers,
 Multi-actor approach strengthened

## Management mode:

- Programme defined by DG RTD and DG AGRI
- Project management shared RTD/REA

## **Characteristics of projects II**

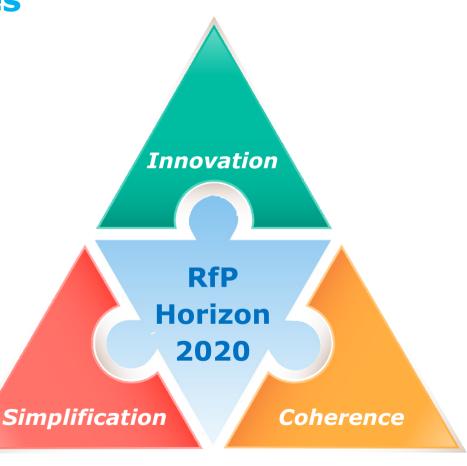

## Horizon 2020: Rules for participation

Three main objectives

Innovation,
Simplification
and Coherence

## Horizon 2020: A single set of rules

- Covering all H2020 research and innovation actions
- Keeping flexibility where needed

## **Horizon 2020: Conditions for Participation**

### **Minimum conditions**

✓ Standard collaborative actions

At least three legal entities each established in a different Member State or an Associated Country;

✓ ERC, SME instrument, programme co-fund, coordination and support, training and mobility actions:

One legal entity established in a Member State or in an Associated Country

### **Additional Conditions**

√ In the work programme or work plan

## **Horizon 2020: Conditions for Participation**

## **Proposal Structure**

#### **Based around evaluation criteria:**

#### **✓** Excellence

Eg. Objectives, concept, progress beyond state-of-art...

#### **✓Impact**

Eg. Potential impact (*incl. with reference to WP*); measures to maximise impact (*dissemination, communication, exploitation*)

#### **✓Implementation**

Including work packages descriptions

rovisional

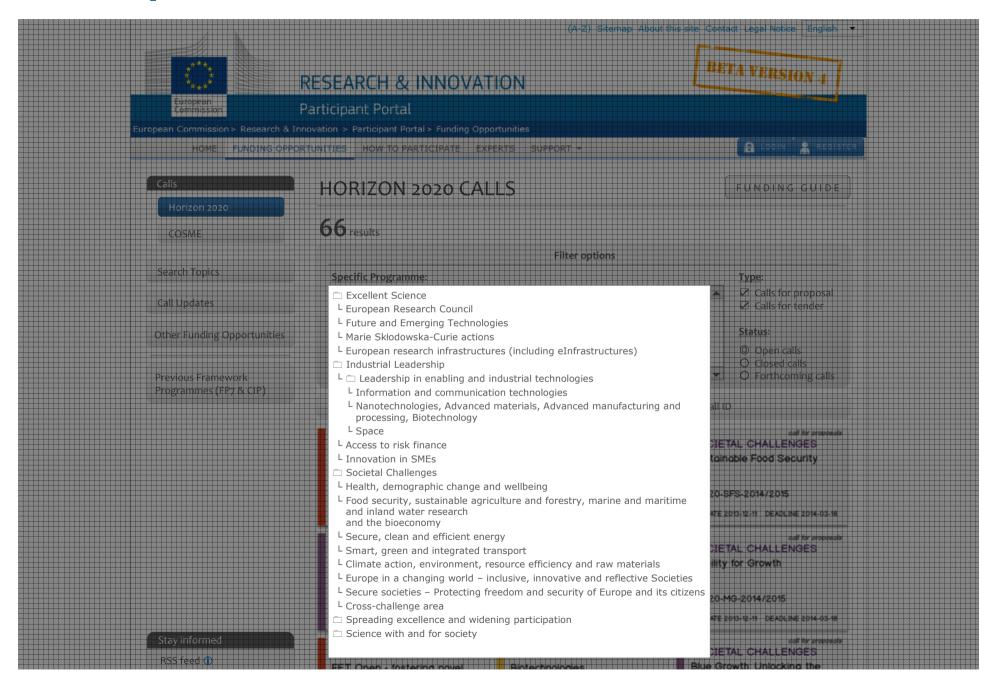

## **Horizon 2020: Conditions for Participation**

#### **Submission**

- √ Full use if pre-registered data (PIC etc)
- Provisional ✓ Self check for SME status, financial viability
- ✓ Proposal "part B" structure closely matching criteria
- ✓ Aligned with Grant Agreement "Description of Work"
- ✓ Simpler but tougher page limits "warn and watermark" in first round of calls
- ✓ More 2-stage procedure; with simplified approaches for short proposals

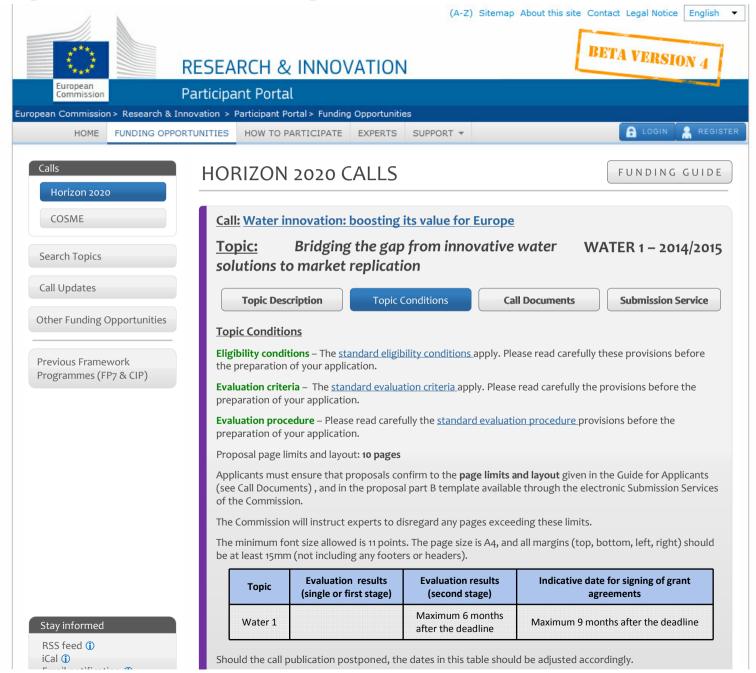

### Participant Portal: H2020 calls - Full tree structure

## **Participant Portal: Search topics results**

## **Participant Portal: Topic details - conditions**

## **Horizon 2020: Evaluation of proposals**

## STANDARD AWARD CRITERIA **QUALITY & EXCELLENCE IMPACT EFFICIENCY** OF THE ACTION

√ First phase

- only EXCELLENCE and IMPACT
- ✓ **ERC** frontier Research actions only EXCELLENCE

✓ Innovation actions higher weighting for "IMPACT"

## **Horizon 2020: Evaluation of proposals**

## Scoring/weights/thresholds

Provisional 7.

#### As in FP7:

Each criterion scored out of 5

Individual threshold of 3

Overall threshold of 10

Unlike FP7, for Innovation Actions and SME instrument...

Impact criterion weighted by factor 1.5

Impact considered first when scores equal

For first phase: individual threshold of 4

## **Horizon 2020: Evaluation of proposals**

#### **Evaluation Process**

Chain of individual, consensus and panel review maintained. But **changes from FP7**:

Dealing with multidisciplinary/sectoral proposals

- New expert profiles, new blood;
- Robust rules on expert turnover;
- More experts per proposal;
- Clear procedures for cases where experts disagree

Call for experts planned for November

rovisional

Dealing with 8 month TTG

(details in next slide)

- Proposals strictly evaluated on their own merit
- More multi-step (stopping evaluation when threshold failed)
- Fast and simplified procedure for SME instrument

No recommandations for substantial changes

## Horizon 2020: Time to Grant Speeding up the process I

### A maximum TTG of 8 months

5 months

for informing all applicants on scientific evaluation

3 months for signature of GA

Some exceptions apply

## Horizon 2020: Time to Grant Speeding up the process II

## How to speed up the process

- ✓ No more negotiations
  each proposal evaluated 'as it is',
  not as 'what could be';
- ✓ Legal entity validated parallel
- ✓ No more paper e-communication & e-signature of grants

### **Horizon 2020: Calendar**

#### **Publication of first calls:**

- Pre-published version already on-line on the Horizon 2020 website
- Prelaunch of Horizon 2020 first calls (2014-2015): **11 December 2013**
- Bio-NCP meeting: 16 January 2014
- Infoday: 17 January 2014

#### Calendar of Deadlines in 2014 and 2015:

Single-stage (CSAs, ERANETs):

2014: 26/06/2014 2015: 11/06/2015

■ Two-stage (RIA, IA):

**2014**: 12/03/2014 and 26/06/2014 **2015**: 24/02/2015 and 11/06/2015

# Thank you for your attention!
