

In behalf of the Association of Economic Consultant SDG and the European Federation of **Management Consultancies Associations FEACO** we would like to kindly invite you to participation in the international conference entitled

“Development and cooperation in modern consulting“
Warsaw, 4-5 October 2007

FEACO, as a leading organization associating national organizations of consultants and consulting companies from Europe, each year organizes meetings for its members, on which consulting companies from all over the world are invited. Annually this event is attended by 200 people o Executive Committee of FEACO, Boards of national associations of consultancies from all over the world, representatives of advisory companies as well as personalities from business and politics.

During two days speakers are going to present changes on modern international management consultancy market, perspectives of it development, necessity of cooperation between consultancies on global financial and economical problems in Poland, Europe and the world.

The main topics of our meeting are:

- the newest trends and perspectives for the consulting industry,
- the role of a consultant in the era of globalization,
- the new services in consulting - from corporate finance to IT,

Discussion around selected topics will create an opportunity to share ideas and experiences among management consulting professionals from all over the world.
